2 PART 1 – Annual Budget

2.1 Mayor's report

Madam speaker,

Executive committee members,

Chief whip,

Councillors,

Traditional leaders,

Chairperson of MPAC,

Chair of chairs

Municipal manager, senior managers and all employees of the municipality present here,

Managers from other government departments.

Leaders of religious denominations

Members of ward committees,

Business leaders present here,

Guests, members of the community and comrades.

Acting speaker, once again it is an honor for me, today to be given an opportunity to table the final IDP and Budget of the municipality for 2016/17 to 2020/21 to the council of Makhuduthamaga Local Municipality. The budget is prepared for the 2016/17 and two outer years to comply with MFMA and MFMA regulations.

Madam speaker.

The year 2016 marks the 5 years of our term of office as it started in May 2011. Our communities had given us a responsibility to represent their interests for basic services needs and to ensure that, their lives are improved throughout our five year term of office through better service delivery. We had said ourselves targets in 2011 when we started our journey to transform our municipality and as per the annual reports for each year during our term of office, we managed to achieve a number of them and due to limited resources and other socio-economic challenges our municipality is phasing we could not achieve some of the set targets.

Madam speaker

It is therefore important, that in the detailed handover report to the next council to be elected in the coming Local Government elections in August 2016, the targets which were not attained be indicated so that the newly elected council could smoothly continue with implementing those projects to attain the vision of this municipality.

Madam speaker

Once again, let me remind and encourage the responsible South Africans who have registered to vote in the next coming Local Government election, that the election date was declared by the president of the Republic of South Africa to be held on the 3rd of August 2016 and on that day, they must go all out to cast their votes to elect a democratic local government of their choice. Let me also advice the voters to carefully vote for a government that will take our country forward, enable the municipalities to attain their constitutional mandate, advocate for and respect democratic Constitution of the Republic of South Africa.

I make this call deliberately because, there are many signs in our society today, which indicates that our people have forgotten, where we come from as South Africans, to the extent that, many just choose to sit back and not participate in the elections of government of our country and the local government elections. We find it important to remind and educate our people, about the hardships our people went through to gain back the freedom we celebrate today. Many of our young people died on 16 June 1976 student Uprisings, fighting the gutter apartheid education system, The Sharpeville massacre is one of the painful experiences never to be wiped off our history as a country and many of our heroes and heroines were brutally killed in the fight for the liberation of our country including our local traditional leader Kgoshi Mampuru II. This all happened for us to have this right to vote for a government of our choice. A government of people by people for its own people. Let us go all out and ensure that this right is fully and rightfully utilized for the sustainability of our growing democracy.

Madam speaker

Let me also condemn the acts of racism that has presented themselves in our country lately and encourage the citizens of our municipality to be a good example to fight against this inhuman behavior. South Africa belongs to all of us, irrespective of a person's race.

Madam speaker

The Municipal Finance Management Act 56 of 2003 requires councils of municipalities in terms of section 16(1) to approve an annual budget for the municipality 30 days (section 24(1)) before the start of the financial year. In order for the municipality to comply with section 16 (1) mentioned above, the mayor of the municipality must table the annual budget at a council meeting at least 90 days before the start of the budget year. I tabled in council held in July 2015 the time schedule outlining key deadlines for –

- i. The preparation, tabling and approval of the annual budget;
- ii. The annual review of the integrated development plan in terms of section 34 of municipal Systems Act; and the budget related policies.
- iii. The tabling and adoption of any amendments to the integrated development plan and the budget related policies; and
- iv. Any consultative processes forming part of the process referred to in the above subparagraphs.

On the 30th of March 2016, I tabled before council that was held at the municipal council chamber, the Draft annual budget for 2016/17 MTREF and its supporting documents and community consultations took place in April 2016 to the beginning of May 2016. We have looked into the inputs made by our communities and other stakeholders such as CoGHSTA, Provincial Treasury, Sekhukhune District municipality, our local business owners and where necessary inputs were included in the final budget of the municipality for 2016/17 MTREF.

Madam speaker

Guided by the time schedule adopted by council, we have followed all necessary processes to ensure that our Integrated Development Plan is not just a compliance document but a plan that carries solution for the needs of our communities.

One of the major objectives for our council in the term of office that is ending, this year 2016, was to build access roads to our 27 traditional leaders with the area of Makhuduthamaga municipality. We all know that, our traditional leaders are surrounded by the communities they lead and therefore, creating access roads to the tribal offices was a good plan to link our communities to the district and provincial roads infrastructure. To

the 25 traditional leaders, we managed to complete the whole scope of work, and the tarred roads end exactly at the gates of the respective tribal offices connecting them to the main roads. Due to the length of the roads and limited funds, there are two roads to Mampane tribal office and Magolego tribal office which, are implemented in phases and estimated to be completed in 2017/18. We therefore encourage, the new coming council to ensure that, this roads are completed and maintained properly to sustain their ability to continue servicing our people and to secure stability within the communities led by our traditional leaders.

Madam speaker

During our development and compilation of the IDP for the next five years which will be implemented by the next elected council, focus was put on implementing projects and programmes that supports the municipality's Spatial Development Framework and revenue generation to ensure sustainability of service delivery by the municipality in the foreseeable future. The municipality's Spatial Development Framework identified Jane Furse as a primary note for economic development and Schoenoord, Apel cross and Phokwane areas as secondary notes for economic development.

The focus will then be to construct access roads which connect the villages within our 31 wards to each of the nodal points for development to support the economic development initiatives planned for this areas. This will ensure, improved job creation, reduction of poverty level and an increased revenue base for the municipality.

Madam speaker

It is very important to highlight that, the honorable president of the Republic of South Africa in his 2012 State of Nation Address identified Jane Furse as a presidential nodal point and indicated that Jane Furse should be developed to be a formal town. A ministerial committee to ensure success in the township establishment in Jane Furse has been put in place and it include the Sekhukhune District municipality executive mayor and the local mayor of Makhuduthamaga municipality. To this far, a greater progress has been made and therefore it is important that, the municipality's planning include and take advantage of this great opportunity to better the lives of our people.

Madam Speaker

Like in all other years, we reviewed the municipality's service delivery goals which guided the development of relevant strategic objectives. The following are the strategic objectives for the next Five budget years and will be reviewed every year and updated when necessary to ensure that the municipality achieves its service delivery goals;

1. To ensure acquisition and sustainable use of land and promote growth and development
2. Provision of infrastructure for improved quality of life.
3. To create and manage an environment that will develop, stimulate and strengthen local economic growth
4. To provide sound and sustainable management of the financial affairs of the municipality.
5. To effectively coordinate all general administrative, governance, human resources, IT and legal services.
6. Improve Internal and External operation of the municipality and its stakeholders.

The six strategic objectives mentioned above, madam speaker, were developed with an aim to address the needs of our people as collected during needs analysis engagements with our communities and guided the preparation of our Integrated Development Plan and the Budget for 2016/17 to 2018/19.

Madam speaker

We are presenting a projected total revenue budget to the amount of **R368 million** for 2016/17 budget year, **R 379.5 million** and **R 404.1 million** for 2017/18 and 2018/19 financial years respectively. The total revenue budget for 2016/17 consists of **R 294.4 million** from National transfers and grants and **R73.7 million** from own sources of revenue.

Our total National transfers and grants for 2016/17 is made up of **R 225.1 million** for Equitable share, **R 1.5 million** for EPWP grant, **R 1.6 million** for Finance Management Grant, **R 59.2 million** for Municipal Infrastructure Grant to fund roads infrastructure projects and **R 7 million** for INEG to fund electricity infrastructure projects.

Total amount of **R 73.7 million** from own revenue sources is made up of **R 33.4 million** for Property rates, **R12.2 million** for interests on investments, **R20.9 million** for interests on outstanding accounts, **R 4.9 million** for agency services, **R579 thousands** for traffic fines and **R 980 thousands** for other revenue.

Madam speaker

The revenue growth for 2016/17 financial year and the two outer years of the MTREF remain very low at an average of 2 per cent, for 2016/17 and increase to 6 percent by 2018/19. This is not enough, considering the service delivery backlogs we are faced with, and therefore measures have to be put in place to ensure that the revenue generation and collection capacity of the municipality is strengthened and sustained. We have therefore reviewed our revenue enhancement strategies, in which process we identified new sources of revenue such as service charges for waste collection, rental of municipal halls and sports grounds. A thorough consultation will be conducted with the relevant stakeholders to ensure successful implementation of the plans to maximise opportunities for more revenue to sustain provision of services to our people.

Madam speaker

We are also, planning to develop a credible and accurate indigent register which will also assist the municipality, not only with directing basic services to the appropriate people but also in planning to maximise revenue generation.

Madam Speaker

Allow me to indicate to this house that, we have reached a point where we have to review the resolution that was taken by this council, not to bill property rates on households as we are facing a challenge of a rapidly increasing operational expenditure and a poor growth in revenue to meet this increasing expenditure. We therefore have to prioritize, the project of compiling the indigent register so that we can know, who will afford paying rates and those who are indigents to avoid a situation where we raise huge amounts of debts and never be able to collect them. This decision will have to be carefully consulted with our citizens to avoid unnecessary instability in our communities by addressing all challenges and facilitating a buy-in from our communities before implementation.

Madam speaker

The total revenue, presented above is used to fund the total budgeted expenditure to the amount of **R 386**

million for 2016/17 financial year. The budgeted expenditure for the two outer years amounts to **R 379.5 million** and **R 401.1 million** for 2017/18 and 2018/19 respectively. The total expenditure for 2016/17 is made up of **R 231.1 million** for operational expenditure and **R 154.9 million** for capital expenditure.

The total expenditure budget for 2016/17 can be summarized as follows per department:

Municipal Manager's Office is allocated a total budget of R 8.4 million

Speaker's Office is allocated a total budget of R 31.4 million

Mayor's Office is allocated a total budget of R 16.8 million

Community services is allocated a total budget of R 32 million

Budget and Treasury is allocated a total budget of R 80.1 million

Corporate Services is allocated a total budget of R 26.3 million

Economic Development and Planning is allocated a total budget of R 20.9 million

Infrastructure Development is allocated a total budget of R 169.7 million

Madam speaker

The operational expenditure of **R231.1 million** for 2016/17 is made up of the following expenditure sources;

Employee related costs – **R 71.5 million**

Remuneration of councilors – **R 20.7 million.**

Debt impairment – **R 17.2 million.**

Depreciation & assets impairments – **R13.6 million.**

Contracted services – **R 36.6 million**

Other expenditure – **R 71.2 million**

Madam speaker

We appropriated a total amount of **R 154.9 million** for capital expenditure to be implemented in 2016/17. We tried our best to cover as many of our wards as possible with the limited resources available, to ensure that service delivery is spread equally to all wards of the municipality. We budgeted **R 3.4** for upgrading the capacity of our two testing stations to improve revenue generation. We appropriated **R 1.7 million** for the purchase of the speaker's vehicle and the mayor's vehicle as the current mayor's vehicle is nearing the end of its useful life. For the improvement and to keep our IT infrastructure at the required standards, we budgeted **R 2.5 million**.

Madam Speaker

We further allocated **R 4 million** for the development of Municipal Park, acquisition of PMS system, construction of market stalls and land scaping at the front of the municipal offices. The budget for Electricity infrastructure amounts to **R 7 million** and will be funded by grant received from DOE. We are planning to electrify 542 households at Riverside-Lehwelere village, Hlalanikahle village and Mokgapaneng village which has already been approved by ESKOM.

Madam speaker

We are allocating R 129.2 million for roads, bridges and storm water construction in 2016/17 and for the two outer years of the 2016/17 MTREF, we allocated R 126.6 million and 130.4 million for 2017/18 and 2018/19 respectively.

In 2016/17 we are going to implement the following projects which will be funded by MIG;

1. Construction of access road from malegale to Madibaneng (6km) – R 5 million.
2. Construction of Kolokotela internal road (5.5km) – R 9.3 million.

3. Construction of Makgwabe to Mphane access road (10km) – R 1 million.
4. Construction of Rietfontein to Eensaam access road (10.5km) – R 12 million.
5. Construction of Thabampshe cross to Tswaing access road – R 23 million.
6. Construction of road from Glen cowie to Moloi (5km) – R 6.9 million.

Madam speaker

Due to funding constraints, we are forced to implement the longer roads in phases and funding them in multi years. Five of the above mentioned projects will be continued in 2017/18 and 2018/19 where applicable to be completed. The following are the projects to be funded by MIG in 2017/18 and 2018/19;

1. Construction of Kolokotela internal road (5.5km) – R 5.6 million
2. Construction of Makgwabe to Mphane access road (10km) – R 31.5 million.
3. Construction of Rietfontein to Eensaam access road (10.5km) – R 22 million.
4. Construction of Thabampshe cross to Tswaing access road – R 10.1 million.
5. Construction of Marishane and Phaahla Internal road (4.2km) – R 7.5 million
6. Construction of road from Mashabela tribal office (10km) – 52 million
7. Construction of road from Glen cowie to Moloi (5km) – R 10.9 million.

Madam speaker

We further allocated an amount of R 51.2 million from equitable share to fund the following capital projects in 2016/17;

1. Construction of access road from R597 to Mashishing reservoir (2.1km) – R 6 million
2. Rehabilitation of R597 road – R 14 million
3. Construction of speed humps on completed projects – R 1.2 million
4. Construction of access road to Maila Mapitsane tribal office (2.4km) – R 5.5 million
5. Construction of access road to Mashupye village (2.6km) – R 5.5 million

6. Construction of access road to Mathibeng tribal office (1.2km) – R 6.5 million
7. Construction of Mohlala-Ngwanatshwane access bridge – 5 million
8. Construction of access road from Maloma tribal office to Tsopaneng grave yard (1.3km) – R 6.9 million
9. Construction of Manganeng access brige – R 1 million.

For 2017/18 and 2018/19 we allocated R 63 million and R 63.2 million respectively from equitable share to fund capital projects is indicated in our IDP and the tables of the annual budget for 2016/17 MTREF.

Madam speaker

We are therefore hereby tabling to this honorable council the following documents for adoption as mandated by section 16(1) of MFMA read with section 74 and 75a of MSA and Municipal Property Rates Act of 2004:

1. Final IDP/Budget for 2016/2017.
2. Reviewed budget related policies
3. National Treasury MFMA circular No. 77, 78, 79, 80 and 81

We are confident that the budget and the accompanying policies are mutually consistent, credible and represent the will of our people.

In conclusion madam speaker, this budget is in line with constitutional mandate of bettering the lives of our people, and this honourable council can agree with me that today is better than when we first walked into this council in 2011 and we hope that tomorrow shall be better than today and working together we shall do more.

Let me take this opportunity on behalf of the executive committee, administration and of course on my own behalf as the mayor, to thank everyone, councillors, executive committee members, officials, Magoshi and the general community for the support and cooperation they shown during our term of council and wish that they continue working with this municipality in the foreseeable future in ensuring better service delivery for our people.

Thank you.

2.2 Council resolutions

LOCAL MUNICIPALITY

COUNCIL RESOLUTIONS

RESOLUTION No. 89 OF 2015/16 FINANCIAL YEAR

AGENDA ITEM: 06 IDP/BUDGET 2016/17 – 2020/21

RESOLUTION ON THE ADOPTION OF IDP/BUDGET 2016/2017-2020/2021

NOTING THAT:

1. The Local Government Municipal Systems Act 32 of 2000 section 34 a municipal council must review its integrated development plan annually in accordance with the assessment of its performance measurements in terms of section 41,
2. Local Government Municipal Finance Management Act 56 of 2003 section 24 the municipal council must at least 30 days before the start of the budget year consider approval of the annual budget
- 2.1 The annual budget for the financial year **2016/2017** and the multi year and single year capital appropriations to the total amount of **R 368,044,728.80** budgeted revenue and **R 386 023 767.24** budgeted expenditure. Cash backed reserves to the amount of **R 18,000,000** will be used to fund expenditure in excess of budgeted revenue. Capital appropriation amount to **R 154 910 000.00** and operational expenditure amounts to **R 231 113 767.24** as set out in the following tables:
 - 2.1.1 Budget summary as contained in table A1
 - 2.1.2 Budgeted financial performance (revenue and expenditure by standards classification) as contained in table A2.
 - 2.1.3 Budgeted financial performance (revenue and expenditure by municipal vote) as contained in table A3
 - 2.1.4 Budgeted financial performance (revenue by source and expenditure by (revenue by source and expenditure by type) as contained in table A4.

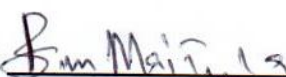

- 2.1.5 Multi –year and single year capital appropriations by municipal votes and standards classification and associated funding by source as contained in table A5
- 2.2 The financial position, Cash flow budget, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are approved as set out in the following tables:
 - 2.2.1 Budget financial position as contained in table A6
 - 2.2.2 Budget Cash flows as contained in table A7
 - 2.2.3 Cash backed reserves and accumulated surplus reconciliation as contained in table A8
 - 2.2.4 Asset management as contained in table A9
 - 2.2.5 Basic service delivery measurement as contained in table A10
3. The Council of Makhuduthamaga Local Municipality, acting in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) approves and adopts with effect from 1 July 2016:
4. In Compliance with the above mentioned Legislations, Makhuduthamaga Municipal Council has, at its Special Council Meeting on the 31st May 2016, held at Sekwati sports ground.

RESOLVED THAT:

- The Integrated Development Plan/Budget for 2016/17 to 2020/21 be adopted as tabled.
- The reviewed budget related policies be approved as tabled.
- The MFMA circular No. 77,78,79,80 and 81 issued by National Treasury be adopted as tabled.
- The tariffs for property rates be 1.5 cents in a rand rate

Mover: Cllr Matlala M.A

Speaker: Cllr Maitula B.M

Signature: 

Date: 31/05/2016

Seconder: Cllr Malaka M.S

Municipal Manager: Mr Moropa M.E

Signature: 

Date: 31/05/2016

2.3 Executive Summary.

Legislative background

In terms of the Municipal Finance Management Act No. 56 of 2003 section 16 (1), the council of a municipality must for each financial year approve an annual budget for the municipality before the start of that financial year. It is a requirement in terms of section 16 (2) that at least 90 days before the start of the financial year, the Mayor of the municipality must table in a council meeting the annual budget before the start of the financial year.

Complying with section 21 (b) of the MFMA, the mayor of Makhuduthamaga Local Municipality has tabled in a council meeting held on 31 August 2015 a time schedule outlining key deadlines for:

- (i) the preparation, tabling and approval of the annual budget;
- (ii) the annual review of—
 - the integrated development plan in terms of section 34 of the Municipal Systems Act; and
 - the budget-related policies;
- (iii) the tabling and adoption of any amendments to the Integrated Development Plan and the budget-related policies; and
- (iv) All consultative processes forming part of the processes referred to in Subparagraphs (i), (ii)

To comply and adhere to the time schedule as adopted by council of the municipality and to comply with the MFMA requirement in terms of chapter 4 (Municipal Budgets), the Annual Budget for 2016/17 and the MTREF is hereby after considering the inputs from community consultations prepared in terms of budget principles, Makhuduthamaga Budget policy, applicable legislations, MFMA circulars, Municipal Budget and Reporting Regulation and supporting documents as detailed below.

Budget principles and assumptions

The application of sound financial management principles for the compilation of the municipality's financial plan is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The municipality's financial management strategies and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, considering the cost containment measures as approved by the cabinet, funds were transferred from low- to high-priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken on expenditures of noncore and 'nice to have' items as indicated in MFMA circular number 78,79 and 82. The MFMA Budget circulars issued in the previous years, were also considered in preparation of the final annual budget for the 2016/17 MTREF.

The municipality has reviewed its revenue enhancement strategies to ensure that they are crafted to address the current revenue collection challenges considering the current circumstances and limitations within which the municipality operates. The current sources of revenue were reviewed to identify obstacles for revenue collection and strategies were put in place to improve and sustain collection of revenue from these sources. New available sources of revenue were also identified, and a plan of action was developed for implementation in the next financial years to start collecting revenue from such potential revenue sources. Furthermore, the municipality has budgeted to improve capacity and service conditions in its customer based DLTCs (Testing

stations) to improve revenue collection for licenses and permits. The municipality has also contracted a debt collector who will assist the municipality to improve collection on outstanding debts

The municipality will undertake a number of customer care workshops in which customers will among other thing be engaged and shown the importance of their responsibility to pay rates and to ensure the municipality truly involves all citizens in the process of ensuring a people lead government. The workshops will also assist the municipality to gather information on challenges faced by the customers to pay their accounts on time and such information will be used by the management of the municipality to encourage and improve debt collection.

National Treasury's MFMA Circular No. 51, 54, 55, 58, 59, 66, 67, 70, 71, 74,75,78,79 and 82 were used to guide the compilation of the 2016/17 and the MTREF Annual Budget.

- The main challenges experienced during the compilation of the 2016/17 MTREF can be summarised as follows:
 - The need to reprioritise infrastructure projects and necessary operational expenditure within the existing limited resources considering the cash flow realities and cash position of the municipality;
 - The municipality's inability to generate enough own revenue to assist in addressing the infrastructure and other service delivery challenges in our communities.
 - The land ownership issues which affect revenue base growth in our municipality and proper town planning in the Jane Furse area, which is the most prominent economic growth point for the municipality.
 - Lack of credible indigent register.

- The following budget principles and guidelines directly informed the compilation of the 2016/17 MTREF:
 - The annual budget for 2016/17 and the MTREF was prepared on a zero base principle, meaning that each item or programme was budgeted considering the specification of the project and not the historical expenditure.
 - The annual DoRA bill for 2016 issued on 18 February 2016 was considered in preparation of our Annual budget for 2016/2017 to 2018/2019.
 - The 2015/16 Adjustment Budget priorities and targets, as well as the base line allocations contained in that Adjustment Budget were considered as the upper limits for the new baselines for the 2016/17 annual budget where resources allow and necessary;
 - Only programmes and capital projects contained in the municipality's Integrated Development Plan will be budgeted for during the 2016/2017 MTREF to ensure that the budget remain an implementation tool for the municipality's IDP.
 - For the 2016/2017 financial year and throughout the MTREF, tariffs for property rates will be reduced to 1.5 cents in a rand to make property rates affordable to our communities and to encourage debtors to pay their accounts.
 - There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the annual Division of Revenue Act;

In view of the aforementioned, the following table is a consolidated overview of the 2016/17 Medium-term Revenue and Expenditure Framework as compared to the past budget year:

Table 1 Consolidated Overview of the 2016/17 MTREF

Description	Adjusted Budget 2015/16	Budget Year 2016/17	Budget Year +1 2017/18	Budget Year +2 2018/19
Total Revenue	378 237 055.38	368 044 727.80	379 586 961.31	404 114 942.83
Cash backed Reserves (IGF)	47 756 554.85	18 000 000.00	-	-
Total Funding	425 993 610.23	386 044 727.80	379 586 961.31	404 114 942.83
Total Operating Expenditure	254 911 413.00	231 113 767.24	245 759 183.72	267 172 701.90
Operating Surplus/(Deficit) for the Year	171 082 197.23	154 930 960.56	133 827 777.59	136 942 240.93
Capital Expenditure	171 040 001.00	154 910 000.00	133 799 000.00	136 930 000.00
Total Surplus/(Deficit)	42 196.23	20 960.56	28 777.59	12 240.93

The municipality has budgeted a total Revenue of R 368 million for 2016/17 financial year, R379.5 million and R404.1 million for 2017/18 and 2018/19 respectively. Total revenue has decreased by 2.7 per cent or R10.2 million for the 2016/17 financial year when compared to the 2015/16 Adjustments Budget. The decrease in total revenue results from a special additional MIG funding which was received in 2015/16 which is not available in the 2016/17 budget year. For the two outer years, total revenue will increase by 3 per cent and 6 per cent respectively, equating to a total revenue growth of R 40.3 million over the MTREF when compared to the 2015/16 financial year. The total revenue for 2016/17 includes the grants allocations from the national treasury to the amount of R 294.4 million and own revenue sources to the amount of R 73.5 million. For the two outer years of the MTREF 2017/18 and 2018/19 total grants allocations included in total revenue amounts to R305.7 million and 323.6 million respectively while own revenue continues to grow to R 73.7 million and R80.4 million respectively. The municipality will use an amount of R 18 million from cash backed reserves to fund the expenditure in excess of the budgeted revenue. The cash backing the reserves is made up of refunds received from SARS for VAT to the amount of R9 million and roll over to the amount of R9 million for capital projects which will not be completed in 2015/16 and therefore had to be rolled over to the 2016/17 financial year.

The municipality is expecting the own revenue total budget for the two outer years to increase during review of the IDP and budget in 2017/18 after the approval of the reviewed revenue enhancement strategies which will introduce new sources of revenue, such as service charges for waste collection, rental of municipal halls and sports grounds and business licensing fees. The municipality has also included in its budget for 2015/16 a project to develop and regularly update the indigent register, with a plan to expand property rates charges to households in 2018/19 financial year to strengthen the municipality's revenue generating capacity and to ensure sustainability of service delivery. The above mentioned plans to expand revenue generation of the municipality have not yet been accounted for in the budget for 2016/17 MTREF as the relevant stakeholders are still going to be consulted before implementation. The revenue enhancement strategies have been finalised and will be consulted during June 2016 and the first quarter of 2016/17 financial year.

The following bar chart indicates, the revenue growth level of the municipality for the 2016/17 MTREF including when compared to the past three years:

Total operating expenditure for the 2016/17 financial year has been appropriated at R 231.1 million and translates into an operating budgeted surplus of R 136.9 million as indicated in table A4. This surplus together with the cash backed reserves to an amount of R18 million are used to fund capital expenditure for 2016/17 as indicated in table 1 above. When compared to the 2015/16 Adjustments Budget, operational expenditure has gone down by 9 per cent in the 2016/17 budget and grows by 1.7 per cent by 2018/19. The operating surplus for the two outer years decrease to R133.8 million for 2017/18 and increase to R136.9 million in 2018/19 financial year. These surpluses will be used to fund capital projects.

The capital budget for 2016/17 financial year amounts to R 154.9 million and has decreased by 9.42 per cent when compared to the 2015/16 Adjustment Budget of R 171 million. The decrease in capital expenditure budget is due to the fact the capital expenditure in excess of budgeted revenue for 2015/16 was funded by cash backed reserves to address the backlogs from previous budget year and an additional grant was received from MIG in 2016/17. The municipality’s revenue for 2015/16 is not sufficient to fund growth in capital expenditure budget and therefore, capital infrastructure projects will be implemented using multi-year budgets to cover all prioritised areas that have service delivery backlogs and to ensure a fair spread of basic services to our 31 wards.

For 2017/18 and 2018/19 budget years, the capital expenditure is budgeted at R 133.7 million and R136.9 million respectively. This reflects a further fall in our capital expenditure due to poor revenue generation and collection by the municipality. The municipality’s revenue enhancements strategies programme is aiming at amongst other things to address this reduction in capital expenditure in the future budget years.

In the total amount for capital budget in 2016/17, an amount of R 57.3 million is funded by MIG for roads and bridges; R 7 million is funded by INEG from DOE, The amount of R 72 million is funded by Equitable share while the remaining capital expenditure will be funded cash backed reserves to the amount of R 18 million. As indicated in the funding breakdown for the capital expenditure above, 88.38 per cent of the total capital expenditure budget is funded from grants revenue and is a call for concern as it poses a challenge on the sustainability and growth of the budget. The revenue enhancement project is once again the only solution for this challenge.

The capital expenditure decreases to R 136.2 million in the 2017/18 financial year and increase to R144.4 million in 2018/19. The details of the capital projects are in table SA36, and the mayor's report clearly outline the objectives council want to achieve through implementation of these infrastructure projects.

Operating Revenue Framework

The need to generate sustainable revenue is essential to meet funding requirements for Makhuduthamaga local municipality to continue improving the quality of services provided to its communities and to address the service delivery backlogs. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and high level of unemployment, inadequate town planning, and many other socio-economic challenges in our municipality which directly affects negatively the municipality's revenue generation and collection.

The lack of control on land for strategic development and economic growth is one of the major factors contributing to poor revenue generation and collection. The involvement of the local traditional authorities within which the 31 wards of our municipality falls within their leadership in the development plans of the municipality remain a pivotal programme, to ensure they understand and support the municipality's concept of spatial development and economic development within the jurisdictions of their leadership. They must understand the socio-economic benefits for them and the communities under their leadership first and not perceive the municipality to be a competitor when it comes to leading and governing their communities.

The expenditure required to address these challenges will always exceed available funding; hence difficult choices have to be made in relation to balance expenditures against realistically anticipated revenues. The council of Makhuduthamaga cannot increase the property rates tariffs in the near future as we still have very low level of revenue collection for the property rates which makes **62 per cent** of the total own revenue of **R73.5 million**. The municipality has resolved to reduce the property rates tariffs from **2 cents in a rand** to 1.5 cents in a rand due to a material increase in the values of properties as per the new valuation roll for 2016 to 2021. Council will continue with programmes and steps that will ensure an improvement in community cooperation and improved collection on property rates as it is a major source of the municipality's own revenue. The municipality currently bill property rates on business properties and government properties only, due to the council resolution that was taken to exclude households pending certain processes to be completed. The municipality is planning to extend the billing of property rates on households in the next coming financial years after the completion of the indigent register project and consultation of the revenue enhancement strategies with all relevant stakeholders to get their buy in on the implementation of the plan.

In an attempt to ensure a strong revenue base, the municipality has also reviewed its revenue enhancement strategy to improve revenue collection in the 2016/2017 financial year and the two outer years. The new sources of revenue proposed in the revenue enhancement strategies will only be included in the budget for the two outer years once approved by council and necessary programmes such as implementing by-laws has been completed.

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Efficient revenue management, which aims to ensure a **95 per cent** annual collection rate for property rates and other key service charges;

- Determining the tariff escalation rate by establishing/calculating the revenue requirement of each service;
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- Increase ability to extend new services and recover costs; (e.g. Waste collection project, business licensing)
- The municipality's Indigent Policy and rendering of free basic services; and
- Tariff policies of the Municipality.
- The township establishment in Jane Furse as the primary note for development.

The following table is a summary of the 2016/17 MTREF (classified by main revenue source)

Surplus/(Deficit) for the year		216 141	274 449	298 996	362 737	363 237	363 237	363 237	368 045	379 587	404 115

The total revenue for the municipality excluding capital transfers amount to R301.8 million for 2016/17, R315.9 million for 2017/18 and R336.8 million for 2018/19. The total operating revenue for 2016/17 has decreased by R952 thousand from 2015/16 budget year as the municipality will not be receiving the MSIG grant for 2016/17. The total amount for operational grants to be received for 2016/17 is R 228.5 million. For the two outer years the total operational grants to be received amounts to R 242.1 million and R256.4 million for 2017/18 and 2018/19 financial years respectively. The total budgeted grants revenue was verified and equal to the National allocations as per the DoRA bill issued on 28 February 2016.

Revenue from government grants forms a significant percentage of the total operating revenue for the municipality for all of the 2016/17 MTREF. This clearly indicate that our municipality is dependent on government grants which contribute 80 per cent of the total operating revenue in 2016/17 budget year and 81 percent in 2017/18 and 80 in 2018/19.

The municipality has completed the process of developing a new valuation roll that will be implemented for the next five years starting from 1 July 2016 to 30 June 2021. As part of the processes for the compilation of the valuation roll, the municipality is ensuring robust engagement of all relevant stakeholders in an attempt to avoid challenges in collection during implementation. The current challenge encountered, is non payment of rates by some government departments because the properties are on communal land.

Revenue generated from property rates amount to R33.4 million and the projected interest on property rates overdue accounts amounts to R20.9 million. The projected interests were calculated considering the current long outstanding accounts in the municipality's debtor's book. The total projected revenue from property rates when including the interests on overdue accounts amounts to R54.3 million which is 74 per cent of the total own revenue budget for 2016/17.

The municipality has contracted a legal firm to assist the municipality in collecting property rates for business properties and will continue working together with the Limpopo department of Cooperative Governance, Human Settlements and Traditional Affairs through the debt forum to collect outstanding rates revenue from all government departments. The valuation roll for 2016 to 2021 separates the value of the land and improvements made on the land and the municipality's billing will also separates the rates bill for the land and the improvements (property) to ensure that rates customers pay for the improvements while the issue of land ownership is still under the process to be resolved.

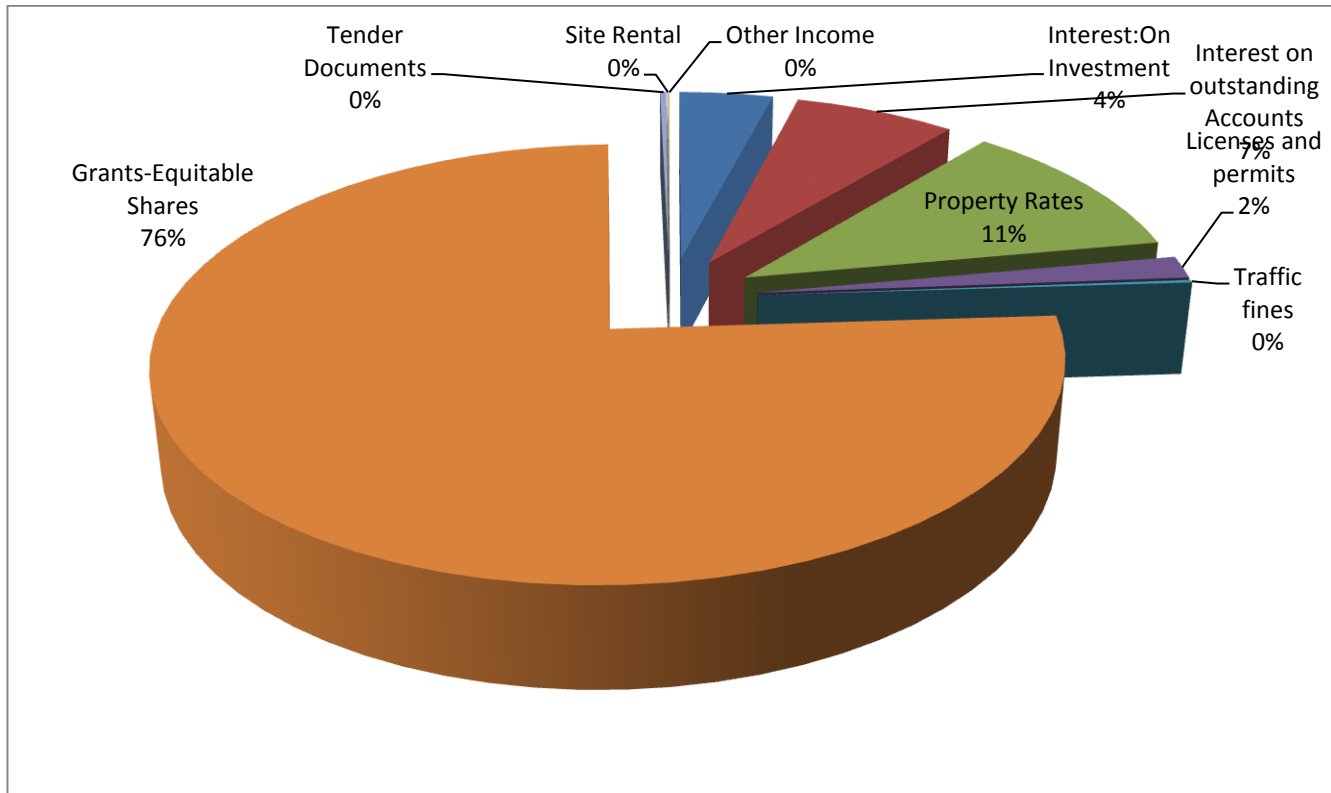

The revenue from Property rates is budgeted to increase to R 33.5 million and R35 million for 2017/18 and 2018/19 respectively. The increase is as a result of projected increase in properties in the area as per the growth in LED projections. The tariff for property rates remain 1.5 cents in a rand for the whole MTREF.

Revenue from Licenses and permits amount to R 5.1 million for 2016/2017 budget year, R 5.1 million and R 6.5 million for 2017/2018 and 2018/2019 financial years respectively. The municipality has budgeted to refurbish the testing stations to increase capacity and improve service efficiency to attract more customers and improve revenue collection on this source of revenue. The municipality will also ensure, that the e-natis system used for issuing licenses and permits that does not need special tests prior to issue, is available at the municipal offices from August 2016 to bring the service closer to many customers who travel a long distance to renew their vehicle licences.

Other revenue consists of various items such as income received for selling tender documents, charges for suppliers database registration and other allocations from LG SITA for skills development. Refer to table SA1 under 2.14 (Other supporting documents) for more details.

The following graph indicates the total operational revenue per source and the percentage of each source to the total operational revenue of R 301.8 million for 2016/2017 financial year:

Revenue per source graph

Source of Revenue	Budget Amount 2016/17	Percentage
Interest:On Investment	12 224 527.35	4%
Interest on outstanding Accounts Licenses and permits	20 997 525.15	7%

	301 834 727.80	100%

Operating Expenditure Framework

The municipality’s expenditure framework for the 2016/2017 budget and MTREF is informed by the following:

- The municipality’s Spatial Development Framework.
- The infrastructure projects plan in the IDP to address the backlog and the repairs and maintenance plan;

- Balanced budget constraint (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit;
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA;
- The capital programme is aligned to backlog eradication plan;
- Operational gains/ surpluses will be directed to funding the capital budget.
- Funding was allocated to only projects which have projects implementation plans to guard against under spending.
- The Demand management plan and procurement plan of the municipality.

The following table is a high level summary of the operating annual budget for 2016/2017 and MTREF (classified per main type of operating expenditure):

Table 5 Summary of operating expenditure by standard classification item

LIM473 Makhuduthamaga - Table A4 Budgeted Financial Performance (revenue and expenditure)

Employee Related Costs

The budget allocation for employee related costs for the 2016/2017 financial year is R71.5 million, which equals to 31 per cent of the total operating expenditure. The South African Local Government Bargaining Council recently entered into a three-year *Salary and Wage Collective Agreement* for the period 01 July 2015 to 30 June 2018. The agreement reached is as follows:

- 2015/16 Financial Year – 7 per cent
- 2016/17 Financial Year – average CPI (Feb 2015 – Jan 2016) + 1 per cent
- 2017/18 Financial Year – average CPI (Feb 2016 – Jan 2017) + 1 per cent

We have therefore used the average CPI as guided by the MFMA Circular number 78 when calculating the salary increase for 2017/18 to 2018/19. The average CPI used as guided by Circular 78 is **5.8%** for 2017/18 and 2018/19. The municipality budgeted 7 per cent increase for 2016/2017 to be implemented from 1 July 2016 for all employees excluding senior managers and the municipal manager. An increase of **6.8** per cent has been included in the two outer years respectively as guided by the MFMA circulars mentioned above.

The total employee related costs has increased from R51.2 million in 2015/16 adjusted budget to R71.5 million in 2016/17 which reflect a 39.65 per cent increase. This is as a result of the inclusion of positions which were not funded during the adjustment budget for 2015/16 in the annual budget for 2016/17 and the MTREF to increase capacity of the municipality to implements its IDP.

As part of the municipality's cost reprioritization and cash management strategy to make enough funds available to fund capital projects, non critical vacancies on the municipal structure were not funded. In addition, expenditure for overtime was only budgeted for the municipal drivers, political offices personnel and traffic officers for emergencies and strict measures has been put in place to ensure that it is not abused considering the cost containment measures as per MFMA circular number 82.

The following positions budget among others was reduced during adjustment budget for 2015/6 as they were vacant as at the date of adjustment budget and therefore only budget for three (3) months was included in the adjustment budget for 2015/16. We have however included the budget for the whole 12 months in the annual budget for 2016/17 as recruitment processes have already commenced and will be completed by end of June 2016, with expectation of successful candidates to start working on the 1st of July 2016.

Position Name	Department	Position level
Protocol officers x 2	Mayor's office (Corporate services)	Lower level management
Youth Officer	Mayor's office (Corporate services)	Lower level management
Secretary: Chief whip	Chief whip's office (Corporate services)	Lower level management
HRM Officer	Corporate services	Lower level management
LRO Officer	Corporate services	Lower level management
Manager Internal Audit	MM's Office	Middle management
Manager Risk management	MM's Office	Middle management
Manager MM's Office	MM's Office	Middle management
CFO	Budget & Treasury	Senior management
Cashiers x 5	Budget & Treasury	Lower level management
Inventory Officer	Budget & Treasury	Lower level management
Senior manager Community services	Community services	Senior management
Senior manager EDP	Economic Development and Planning	Senior management
Senior Town planner	Economic Development and Planning	Middle management
PMS Officer	Economic Development and Planning	Lower level management

The following new positions among others were included in the municipality's organogram to increase capacity to attain the IDP objectives:

Position Name	Department	Position level
Deputy CFO	Budget & Treasury	Middle management
Council Secretary	Council	Middle management
Manager waste management	Community services	Middle management

Furthermore, there are positions on the municipal organogramme which are filled and the municipality has found out that they are no longer necessary when restructuring the organogramme and since they are 5 year

contracts, they will be removed from the organogramme and budget once the contracts end. Some of the contracts end in 2017/18 and 2018/19.

Remuneration of Councillors

The cost associated with the remuneration of councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The total costs for councillor allowances is R 20.7 million for 2016/17, R 22.2 million and R 23.8 million for 2017/2018 and 2018/19 respectively. An increase was projected at 4 per cent for 2016/17 and 7 per cent for 2017/18 and 2018/19 for the upper limits for councillors.

Debt Impairment

The provision of debt impairment for 2016/2017 was determined based on the Debt Write-off Policy of the municipality. For the 2016/2017 financial year this amount equates to R17.2 million and increases to R18.5 million and R19 million in 2017/18 and 2018/19 respectively. This expenditure is projected for property rates debtors and is considered to be a non-cash flow item. This item is not cash funded as there is no service rendered that is associated with the billed debt and therefore no costs associated with rendering the services were determined, to require cash funding. Revenue generated from Property rates is used to fund this expenditure item to avoid cash flow problems that may arise when customers does not pay. For example, the expenditure for Debt recovery is funded through property rates as a percentage of the amount collected, which means, when there is no collection no expenditure will be incurred.

Depreciation

Provision for depreciation and asset impairment has been informed by the Municipality's Asset Management Policy and GRAP 17. The projections were made taking into consideration the municipality's assets value as recorded in the 2014/2015 AFS and new acquisitions for the current year 2015/2016 and 2016/2017 budget year and the MTREF. Budget appropriations in this regard are R13.6 million for the 2016/2017 financial year and equates to 6 per cent of the total operating expenditure. It increases to R 14.6 million and 15.6 million for 2017/18 and 2018/19 budget years respectively. The budgeted amount for depreciation for 2016/17 has decreased due to assets which have reached their depreciable lifespan (Zero book value) in 2015/16 financial year and therefore did not form part of the book value balance for projecting Depreciation. The revenue generated from property rates is used to fund this expenditure.

It must also be noted that, though the municipality's capital expenditure is more than R100 million for each budget year of the MTREF, the majority of the roads which forms part of this capital expenditure are **D roads** which will not be capitalised due to the circular issued by RAL and therefore did not form part of budgeted depreciation calculation. Only our roads and other assets under our ownership and control were considered when doing the projections for the budget years of the MTREF.

Contracted Services

Contracted services comprises of security services, cleaning services, repairs and maintenance for infrastructure assets and operating leases for office equipments and machinery. Security and cleaning services have been allocated R8.5 million and R4.3 million for 2016/17 respectively. The costs of these services increase to R9.4 million and R4.7 million by 2017/2018.

Repairs and maintenance has been budgeted at 10% percent of the total operational budget and 11 per cent of the Asset value as per 2014/2015 AFS taking in to consideration guidelines contained in MFMA circular number 66, 67, 70, 72, 74 ,75, 78 and 79. It includes repairs and maintenance for other assets at R 4.8 million and repairs and maintenance for infrastructure assets at R 18.6 million (R 16.1 million for Roads and bridges and R2.5 million for electricity assets).

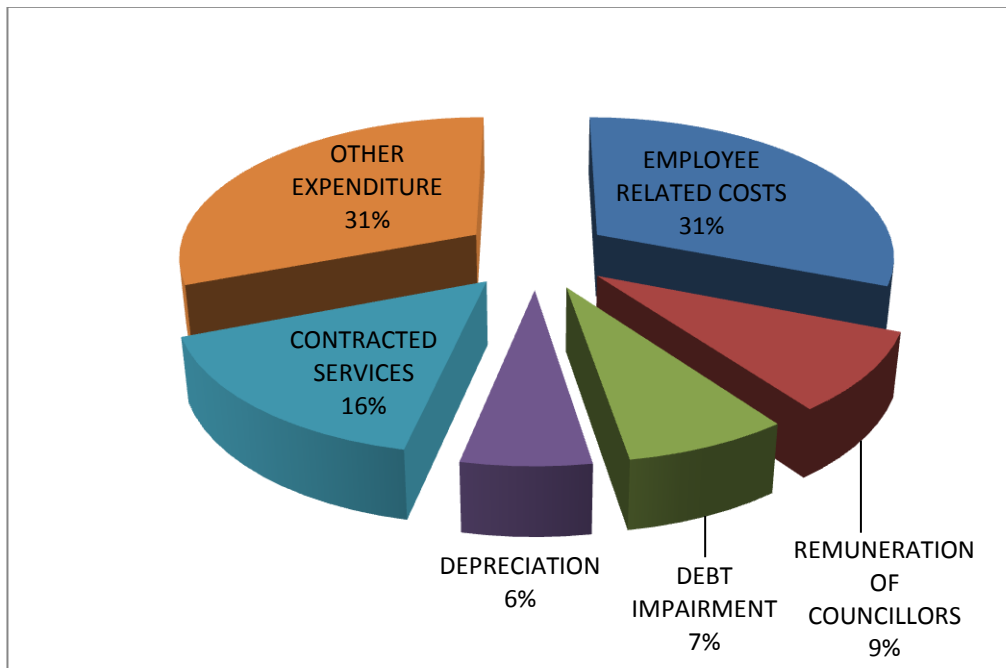

Other Expenditure

Other expenditure comprises of various line items relating to the daily operations of the municipality. Amongst other expenditures comprised in this group for 2016/2017 financial year, the municipality have budgeted incentives for ward committees at R3.7 million, training and capacity building of councillors and ward committees at R600,000, mayor’s special and outreach programmes at R 3.5 million, publications and branding of the municipality at R 7.5 million, Audit fees at R2.6 million, bursary fund at R2.2 million, travel and accommodation at R2.4 million, acquisition of land, spatial planning and land scarping at R3.7 million, SMME support and LED programmes at R2.4 million, free basic electricity at R4.1 million, disaster management programmes and sports and culture promotions at R2.2 million.

Furthermore, in compliance to the cost containment measures as approved by the cabinet, the municipality has reduced spending on excessive advertising, travelling, caterings, promotional materials and mandates that belong to other spheres of government for 2016/2017 MTREF. For further details on other expenditure refer to table SA1

The following bar chart gives a breakdown of the main expenditure categories for the 2016/2017 financial year.

Table 6 Main Operational Expenditure categories for 2016/2017 financial year

Description	Budget Amount 2016/17	Percentage
EMPLOYEE RELATED	71 518 218.78	31%
REMUNERATION OF	20 792 343.00	9%
DEBT IMPAIRMENT	17 280 000.00	7%
DEPRECIATION	13 637 774.51	6%
CONTRACTED	36 648 601.41	16%
OTHER EXPENDITURE	71 236 829.54	31%
	231 113 767.24	100%

Priority given to repairs and maintenance

Considering National Treasury MFMA circular number 54, 55, 58, 59, 66, 67, 70, 72, 74,75, 78 and 79 ,the municipality has put repairs and maintenance as one of the priorities to preserve and maintain the municipality's current infrastructure, to ensure that the existing assets are in good working conditions and to lengthen the assets life span. The 2016/17 budget and MTREF provide for a decrease in the area of asset maintenance as compared to the previous financial year 2014/15. In terms of the Municipal Budget and Reporting Regulations, operational repairs and maintenance is not considered a direct expenditure driver but an outcome of certain other expenditures, such as remuneration, purchases of materials and contracted services. In the municipality's case, all repairs and maintenance services for the infrastructure assets will be done through contracted services as indicated in table SA1 of the A schedule. The repairs and maintenance budget for 2016/17 amount to R23.4 million, R31.4 million and R36.5 million for 2017/18 and 2018/19 respectively.

Repairs and maintenance expenditure budget amounts to 10 per cent of the municipality's budgeted operational expenditure for 2016/2017 which is a requirement in terms of the National Treasury MFMA Budget circulars guidelines. For the two outer years, repairs and maintenance is budgeted at 13 per cent and 14 per cent of the budgeted operational expenditure respectively.

Free Basic Services: Electricity tokens

The municipality gives free basic electricity tokens to poor households within the municipal jurisdictions to assist them as they cannot afford the electricity costs. Our municipality does not have a licence to provide electricity and therefore buys the tokens from Eskom for the affected households who registered with the municipality. To receive these free services the households are required to register in terms of the municipality's Indigent Policy. Details relating to free services, cost of free basic services, revenue lost owing to free basic services as well as basic service delivery measurement is contained in Table MBRR Table A10 (Basic Service Delivery Measurement)

The cost of the free basic electricity of the registered indigent households is financed through the local government equitable share received in terms of the annual Division of Revenue Act and it has been allocated at R4.1 million for 2016/2017, R4.4 million and R4.7 million for 2017/18 and 2018/19 respectively.

Capital expenditure

The following table provides a breakdown of budgeted capital expenditure by vote:

Table 3 2014/15 Medium-term capital budget per vote

New Capital Assets

For 2016/2017 an amount of R140.9 million has been appropriated for the new capital expenditure which will be funded by MIG to the amount of R57.3 million, R 7 million of INEG and equitable share & cash backed reserves to the amount of R 90.6 million. For 2017/2018 and 2018/2019 the budget has been appropriated at R 133.7 million and R136.9 million respectively.

Infrastructure and Development vote is appropriated the highest allocation of R 129.2 million in 2016/2017 which equates to 88 per cent of the total capital budget for 2016/17 to build roads and bridges, Budget and Treasury is allocated 3% per cent of the total capital budget for capacitating the two testing stations aiming at improving service efficiency and ultimately improved revenue generation. The remaining 9 per cent is allocated to Economic Development and Planning at 4 per cent, Corporate Services at 2 per cent, Community services at 2 per cent & Councillor's at 1%. For further detailed information on the capital budget, refer to table SA 36 which provides projects names and respective ward allocations.

Renewal of existing Assets

An amount of R 14 million is budgeted for the rehabilitation of the R579. An amount of R 7 million is further allocated to renewal of the R 579 in the 2017/18 budget year. This percentage is lower than the 40 per cent guideline by National Treasury, and is because the municipality during its assets verification process developed a report which indicates that the roads are still in good conditions as the most of them were newly

constructed and therefore do not need renewal in the next three years. The only Asset which will be renewed is road R597 as part of Jane Furse township establishment to improve its capacity.

Some of the projects to be undertaken over the 2016/17 MTREF includes, amongst others:

- Construction of roads, bridges and storm water – R 257 million
- Renewal of existing Assets – R 7 million
- Acquisition of Property plant and Equipment – R 19.8 million

2.4 DRAFT ANNUAL BUDGET TABLES (A1 to A10)

The following are the ten main A schedule tables for the annual budget of Makhuduthamaga municipality for the 2016/2017 MTREF

Cash/cash equivalents at the year end:	2	127 395	129 702	112 117	105 548	68 696	(43 422)	(43 422)	74 569	97 010	142 423

Explanatory notes to Table A7 - Budgeted Cash Flow Statement

1. The budgeted cash flow statement is the first measurement in determining if the budget is funded.
2. It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.
3. It can be seen that the cash levels of the municipality fell significantly over the 2015/16 budget year but however the municipality is managing to reach a positive cash movements in the 2016/17 MTREF.
4. The 2016/17 MTREF provide for a net increase in cash of R 5.8 million for the 2016/17 financial year, net increase of R 22.4 million in 2017/18 and R 45.4 million in 2018/19.
5. Cash Flow from Operating activities;

The municipality has projected to receive R 23.5 million from Property rates and R 30.7 million from other revenue which consists mainly of VAT recovery for capital expenditure and other contracted services for operational purposes. Transfers from National government are projected to be received 100%. Trade and other payables as indicated in table A6 has been subtracted from the total expenditure included in the cash flow and non cash flow items such as depreciation and debt impairment has been disregarded in the calculations.

The municipality's council has contracted a law firm to assist in debt collection and is currently engaging relevant stake holders to ensure a better collection rate in property rates and to ensure a better implementation of service charges in the near future.

Capital Assets expenditure and cash paid to suppliers and employees increases over the 2016/17 MTREF due to increase in employee costs, operational expenditure budget, capital expenditure budget and the projected creditors balance at the end of each budget year.

2.4.8 Table MBRR A8 - Cash backed reserves/Accumulated surplus reconciliation

LIM473 Makhuduthamaga - Table A8 Cash backed reserves/accumulated surplus reconciliation

Reserves to be backed by cash/investments	5										
Total Application of cash and investments:		39 920	27 573	23 561	(11 788)	(6 094)	(6 094)	(6 094)	(15 139)	(14 032)	(14 938)
Surplus(shortfall)		87 475	102 129	88 556	63 720	74 790	74 790	74 790	89 708	111 042	157 360

Explanatory notes to Table A8 - Cash Backed Reserves/Accumulated Surplus Reconciliation

1. The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.
2. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.
3. The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".
4. Non-compliance with section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.
5. From the table it can be seen that for the period 2017/18 to 2018/19 the municipality's budget is properly funded and reflect surplus.
6. Considering the requirements of section 18 of the MFMA, it can be concluded that the 2016/17MTREF was fully funded.
7. The municipality does not have noncurrent investments and no projection has been made for unspent conditional grants as we plan to utilise 100% of the allocation by year end.
8. The municipality is planning to spend 100% of its conditional grants.
9. VAT input will always be more than VAT output which is reflecting in the cash flow from operating activities and therefore no amount will reflect under statutory requirements.

Explanatory notes to Table A10 - Basic Service Delivery Measurement

1. Table A10 provides an overview of service delivery levels, including backlogs (below minimum service level), for each of the main services.
2. The municipality continues to make good progress with the eradication of backlogs on services that are within the functions of the municipality in terms of the South African Constitution and Municipal Systems Act. The municipality performs only the function of providing indigents registered in the municipality's indigent register with electricity tokens (Free Basic Electricity) and the other basic services as listed in table A10 are performed by the Greater Sekhukhune District Municipality. It must be noted also that as the municipality does not sell electricity, but purchase the electricity from Eskom, therefore the revenue costs for providing free basic electricity is Zero.
3. The following are the services that are provided by the district municipality and hence, no information has been completed on the table A10 of the municipality's Annual budget for 2016/2017 MTREF:
 - a. Water services
 - b. Sanitation services

- c. Electricity services
 - d. Refuse services
4. The budget provides for 110 000 households to be registered as indigent in 2016/17, and therefore entitled to receiving Free Basic Services. It is anticipated that these Free Basic Services will cost the municipality R4.1 million in 2016/17, increasing to R4.4 million in 2017/18 and R4.7 million in 2018/2019. This is covered by the municipality's equitable share allocation from national government.
 5. The revenue foregone to the amount of R 605 thousands for Property rates is for residential households which are not billed as per council resolution.

3 PART 2 – SUPPORTING DOCUMENTS

3.1 Overview of municipal budget process.

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

The Budget Steering Committee of the municipality consists of the Municipal Manager and senior officials of the municipality meeting under the chairpersonship of the Portfolio chairperson for Finance.

The primary aims of the Budget Steering Committee are to ensure:

- that the process followed to compile the budget complies with legislation and good budget practices;
- that there is proper alignment between the policy and service delivery priorities set out in the municipality's IDP and the budget, taking into account the need to protect the financial sustainability of municipality;
- that the municipality's revenue and tariff setting strategies ensure that the cash resources needed to deliver services are available; and
- that the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources.

The budget steering committee had regular meetings to deal with the IDP/Budget processes as contained in the municipality's approved time schedule that sets out the process to review the IDP and prepare the annual budget.

3.1.1 Budget Process Overview

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in August 2015) a time schedule that sets out the process to revise the IDP and prepare the budget.

The Mayor tabled in Council the required IDP and budget time schedule on 31 July 2015. Key dates applicable to the process were adhered to and progress was reported to council quarterly

3.1.2 IDP and Service Delivery and Budget Implementation Plan

This is the fifth review of the IDP as adopted by Council in May 2011. It started in 2015 after the tabling of the IDP Process Plan and the Budget Time Schedule for the 2016/17 MTREF.

The municipality's IDP is its principal strategic planning instrument, which directly guides and informs its planning, budget, management and development actions. This framework is rolled out into objectives, key performance indicators and targets for implementation which directly inform the Service Delivery and Budget Implementation Plan. The Process Plan applicable to the first revision cycle included the following key IDP processes and deliverables:

- Registration of community needs;

- Compilation of departmental business plans including key performance indicators and targets;
- Financial planning and budgeting process;
- Public participation process;
- Compilation of the SDBIP

The SDBIP for 2016/17 has been completed and will be submitted to the relevant stakeholders within 28 days from the date of adopting the budget by council.

3.1.3 Financial Modelling and Key Planning Drivers

As part of the compilation of the 2016/17 MTREF, extensive financial modelling was undertaken to ensure affordability and long-term financial sustainability. The following key factors and planning strategies have informed the compilation of the 2016/17 MTREF:

- Municipality's growth
- Policy priorities and strategic objectives
- Asset maintenance
- Economic climate and trends (i.e inflation, Eskom increases, household debt, migration patterns)
- Performance trends
- The approved 2015/16 adjustments budget and performance against the SDBIP
- Cash Flow Management Strategy
- Debtor payment levels
- Investment possibilities
- The need for tariff increases versus the ability of the community to pay for services;
- Improved and sustainable service delivery
- The municipality's Spatial Development Plan

In addition to the above, the strategic guidance given in National Treasury's MFMA Circulars 51 and 54, 55, 58, 59, 66, 67, 70, 72, 74, 75, 78 and 79 has been taken into consideration in the planning and prioritisation process.

3.1.4 Community Consultation

The consultation schedule for draft 2016/17 MTREF which was tabled before Council on 30 March 2016 was published on the municipality's website, and hard copies were made available at customer care offices, municipal notice boards and the municipality's community libraries and at tribal offices.

All documents in the appropriate format (electronic and printed) were submitted to National and Provincial Treasury, and other national and provincial departments in accordance with section 23 of the MFMA and MFMA circular number 79 and 80, to provide an opportunity for them to ensure that their inputs are incorporated in the final budget and for monitoring purposes. Inputs received from the Provincial Treasury were considered and where necessary and appropriate included in the final budget for 2016/17 and the MTREF.

Ward Committees were utilised to facilitate the community consultation process. The applicable dates and venues which were published on municipality's websites, notice boards and published in a newspaper and the local community radio station were as follows. Individual sessions were scheduled and conducted with organised businesses and other stakeholders to further ensure transparency and interaction. Other

stakeholders that were involved in the consultation include churches, non-governmental institutions, local chiefs, traditional healers, youth, people with disabilities and community-based organisations.

Consultation notice and timetable.

2016/ 2017 IDP/ BUDGET STAKEHOLDERS CONSULTATION PROGRAMME

Date	Target Audience /Wards	Time	Venue
11.04.2016	Traditional healers Council, HIV/Aids Councils, Safety Council, NAFCOC, LED forum, NGOs and CBOs	10h00	Municipal Council
12.04.2016	Wards 1-9	09h00	Eensaam Sports Ground
13.04.2016	Wards 12,13,14,15,16,17, 22 and 23	09h00	Maloma Village (Makatane Sports Ground)
14.04.2016	Wards 10,11,18,19,20 and 21	09h00	Zamane(Tigers Sports Ground)
15.04.2016	Wards 24,25,26,27,28,29,30 and 31	09h00	Kolokotela Sports Ground
18.04.2016	Municipal Staff	09h00	Municipal Chamber
19.04.2016	Special focus groups (Youth, Women, the elderly and Person living with Disabilities)	09h00	Municipal Chamber
20.04.2016	Magoshi	09h00	Municipal Chamber
25.04.2016	IDP Steering committee	09h00	Municipal Chamber
26.04.2016	IDP Representative Forum	09h00	Municipal Chamber

Submissions received during the community consultation process and additional information regarding revenue and expenditure and individual capital projects have been considered and where relevant and necessary are being included as part of the final budget for the 2016/17 MTREF.

3.2 Overview of alignment of annual budget with IDP

The Constitution mandates local government with the responsibility to exercise local developmental and cooperative governance. The eradication of imbalances in South African society can only be realized through a credible integrated developmental planning process.

Our municipal IDP that provides a five year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities to create a development platform, which correlates with the term of office of the municipal council, was first adopted on 31 May 2011. This plan aligns the resources and the capacity of a municipality to its overall development aims and guides the municipal budget. The municipality’s IDP is therefore a key instrument which was used to provide vision, leadership and direction to all those that have a role to play in the development of the municipality. The IDP enables the municipality to make the best use of scarce resources and speed up service delivery.

Integrated developmental planning in the South African context is amongst others, an approach to planning aimed at involving the municipality and the community to jointly find the best solutions towards sustainable development. Furthermore, integrated development planning provides a strategic environment for managing and guiding all planning, development and decision making in the municipality.

The aim of this revision cycle was to develop and coordinate a coherent plan to improve the quality of life for all the people living in the area, also reflecting issues of national and provincial importance. One of the key objectives is therefore to ensure that there exists alignment between national and provincial priorities, policies and strategies and the municipality’s response to these requirements.

The Constitution requires local government to relate its management, budgeting and planning functions to its objectives. This gives a clear indication of the intended purposes of municipal integrated development planning. Legislation stipulates clearly that a municipality must not only give effect to its IDP, but must also conduct its affairs in a manner which is consistent with its IDP. The following table highlights the IDP’s five strategic objectives for the 2016/17 MTREF and further planning refinements that have directly informed the compilation of the budget:

Table 17 IDP Strategic Objectives

2016/2017 Financial year	2017/2018 Financial year
To ensure sustainable use of land and promote growth and development.	To ensure sustainable use of land and promote growth and development.
To improve quality of life of our citizens through sustainable roads infrastructure.	To improve quality of life of our citizens through sustainable roads infrastructure.
To create an environment that will develop, stimulate and strengthen local economic growth.	To create an environment that will develop, stimulate and strengthen local economic growth.
To provide sound and sustainable management of the financial affairs of the municipality.	To provide sound and sustainable management of the financial affairs of the municipality.
To effectively coordinate all general administrative, governance, human resources, IT and legal services.	To effectively coordinate all general administrative, governance, human resources, IT and legal services.
To provide assurance and build internal and public confidence on internal and external operations of the municipality and its stakeholders.	To provide assurance and build internal and public confidence on internal and external operations of the municipality and its stakeholders.

In order to ensure integrated and focused service delivery between all spheres of government it was important for the municipality to align its budget priorities with that of national and provincial government. All spheres of government place a high priority on infrastructure development, economic development and job creation, efficient service delivery, poverty alleviation and building sound institutional arrangements.

Local priorities were identified as part of the IDP review process which is directly aligned to that of the national and provincial priorities. The key performance areas can be summarised as follows against the five strategic objectives:

1. Provision of quality basic services and infrastructure which includes, amongst others:
 - Provide waste removal;
 - Provide roads and storm water;
 - Provide municipal planning services; and
 - Maintaining the infrastructure of the municipality.
2. Economic growth and development that leads to sustainable job creation by:
 - Ensuring there is a clear structural plan for the municipality;
 - Ensuring planning processes function in accordance with set timeframes;
 - Facilitating the use of labour intensive approaches through the EPWP programme in the delivery of services and the building of infrastructure.
- 3.1 Fight poverty and build clean, healthy, safe and sustainable communities:
 - Effective implementation of the Indigent Policy;
 - Working with the provincial department of health to assist on matters affecting primary health care.
 - Extending waste removal services and ensuring effective municipal cleansing;
 - Working with strategic partners such as SAPS to address crime;
 - Ensuring safe working environments by effective enforcement of building and health regulations;
 - Promote viable, sustainable communities through proper zoning; and
 - Promote environmental sustainability by protecting wetlands and key open spaces.
- 3.2 Integrated Social Services for empowered and sustainable communities
 - Work with provincial departments to ensure the development of community infrastructure such as schools and clinics is properly co-ordinated.
 - Provision of bursaries for well deserving students who are financially needy.
4. Foster participatory democracy and Batho Pele principles through a caring, accessible and accountable service by:
 - Optimising effective community participation in the ward committee system; and
 - Implementing Batho Pele in the revenue management strategy.
- 5.1 Promote sound governance and transparency through:
 - Publishing the outcomes of all tender processes on the municipal website
- 5.2 Ensure financial sustainability through:
 - Reviewing the use of contracted services
 - Continuing to implement the infrastructure management strategy and the repairs and maintenance plan
- 5.3 Optimal institutional transformation to ensure capacity to achieve set objectives
 - Review of the organizational structure to optimize the use of personnel;

The 2016/17 draft budget and the MTREF has therefore been directly informed by the IDP revision process and the following tables provide a reconciliation between the IDP strategic objectives and operating revenue, operating expenditure and capital expenditure.

3.3 Measurable performance objectives and indicators

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities. In accordance with legislative requirements and good business practices as informed by the National Framework for Managing Programme Performance Information, the municipality has developed and implemented a performance management system of which system is constantly refined as the integrated planning process unfolds. The Municipality targets, monitors, assess and reviews organisational performance which in turn is directly linked to individual employee's performance.

At any given time within government, information from multiple years is being considered; plans and budgets for next year; implementation for the current year; and reporting on last year's performance. Although performance information is reported publicly during the last stage, the performance information process begins when policies are being developed, and continues through each of the planning, budgeting, implementation and reporting stages.

The performance of the municipality relates directly to the extent to which it has achieved success in realising its goals and objectives, complied with legislative requirements and meeting stakeholder expectations. The municipality therefore has adopted one integrated performance management system which encompasses:

- Planning (setting goals, objectives, targets and benchmarks);
- Monitoring (regular monitoring and checking on the progress against plan);
- Measurement (indicators of success);
- Review (identifying areas requiring change and improvement);
- Reporting (what information, to whom, from whom, how often and for what purpose); and
- Improvement (making changes where necessary).

The performance information concepts used by the municipality in its integrated performance management system are aligned to the **Framework of Managing Programme Performance Information** issued by the National Treasury:

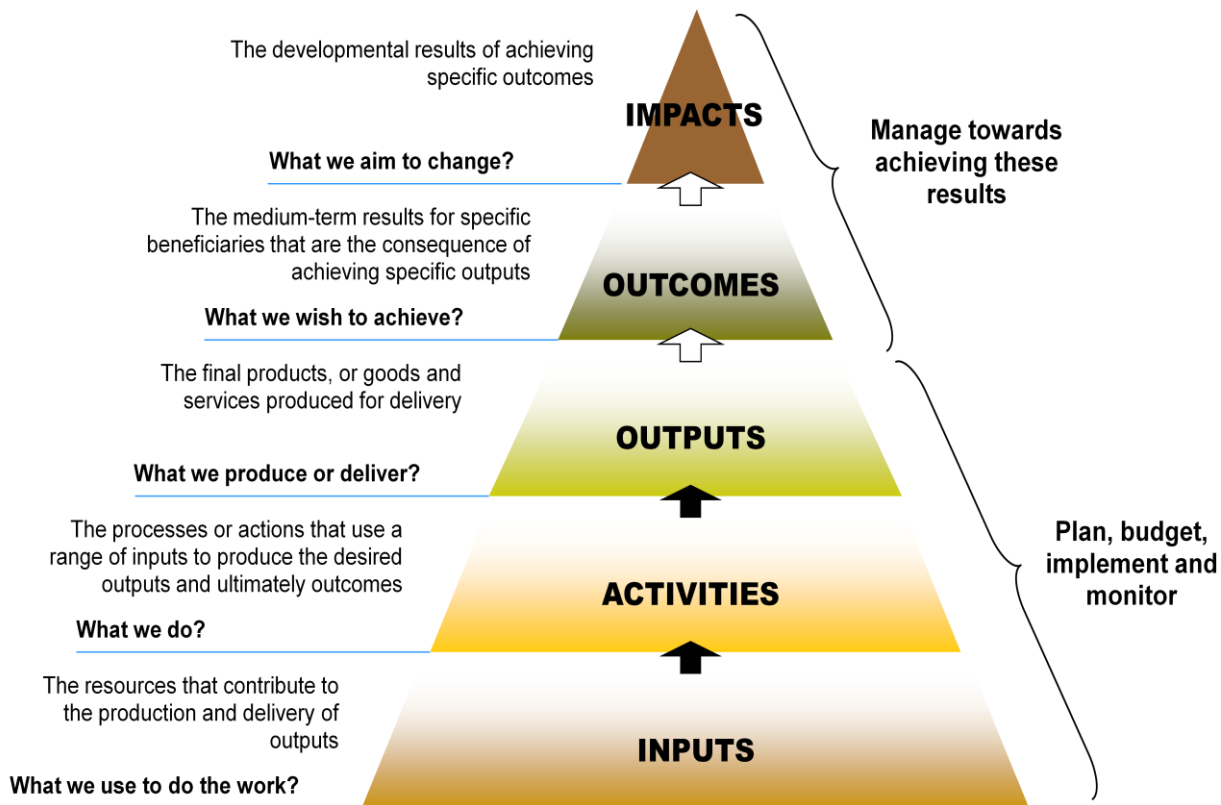

Figure 1 Definition of performance information concepts

The following table sets out the municipalities main performance objectives and benchmarks for the 2016/17 MTREF.

3.3.1 Performance indicators and benchmarks

3.3.1.1 Borrowing Management

Capital expenditure in local government can be funded by capital grants, own-source revenue and long term borrowing. The ability of a municipality to raise long term borrowing is largely dependent on its creditworthiness and financial position. Our municipality is not planning to make use of borrowed funds to fund its capital expenditure for 2016/2017 MTREF due to poor own revenue collection rate.

3.3.1.2 Safety of Capital

- *The debt-to-equity ratio* is a financial ratio indicating the relative proportion of equity and debt used in financing the municipality's assets. The indicator is based on the total of loans, creditors, and overdraft and tax provisions as a percentage of funds and reserves. The debt equity ratio of our municipality remains at 0:1 or zero per cent for 2016/2017 as our municipality does not have borrowings or overdraft and the ratio remain stable for the two outer years.

3.3.1.3 Liquidity

- *Current ratio* is a measure of the current assets divided by the current liabilities and as a benchmark the municipality has set a limit of 1, hence at no point in time should this ratio be less than 1. For the 2014/15 financial year the current ratio is 4.6 as per the audited annual financial statements for 30 June 2015. For the 2015/16 financial year, it is estimated to be at 7. It is further estimated to be at 8.7, 10.4 and 11.9 for 2016/17 and the two outer years of the 2016/17 MTREF respectively. Going forward it will be necessary to maintain these levels.
- *The liquidity ratio* is a measure of the ability of the municipality to utilize cash and cash equivalents to settle its current liabilities as they fall due. Ideally the municipality should have the equivalent cash and cash equivalents on hand to meet at least the current liabilities, which should translate into a liquidity ratio of 1 or more. Anything below 1 indicates a shortage in cash to meet creditor obligations. For the 2016/17 MTREF our municipality ratio indicates that we will be able to meet our creditor obligations. This is also supported by the cash flow projections appropriated to ensure that cash out flow is always covered by cash inflow or availability of surplus funds to settle the obligations.

3.3.1.4 Revenue Management

- As part of the financial sustainability strategy, an aggressive revenue management framework has been put in place to increase cash inflow, not only from current billings but also from debtors that are in arrears in excess of 90 days. The intention of the strategy is to streamline the revenue value chain by ensuring accurate billing, customer service, and credit control and debt collection.
- The significant percentage of our debtors are government departments which did not pay their accounts because of various reasons provided to the municipality which includes budget issues and lack of certain information from the municipality's side. We have worked hard to compile all information required to prove the accuracy of the billings and submitted it to all affected departments.

3.3.1.5 Creditors Management

- The municipality has managed to ensure that creditors are settled within the legislated 30 days of the receipt of the invoice in the previous financial year. As our liquidity ratio is in good order we will not encounter cash flow problems to ensure a 100 per cent compliance rate to this legislative obligation in

2016/17 and the MTREF. This has had a favourable impact on suppliers' perceptions of risk of doing business with the municipality, which is expected to benefit the municipality in the form of more competitive pricing of tenders, as suppliers compete for the municipality's business.

3.3.1.6 Other Indicators

- Employee costs as a percentage of operating revenue continues to increase for the 2016/17 MTREF as the municipality is filling critical vacancies to assist in efficient acceleration of service delivery to address the municipality's backlog.
- Repairs and maintenance as percentage of operating revenue is dropping from 15 per cent in 2015/16 to 7.9 percent in 2016/17 due limitation in funds available and the fact that most of our infrastructure assets are new. The municipality will always ensure that its existing assets are properly maintained and repaired to lengthen their life span and to keep them in good working conditions.

3.3.2 Free Basic Services: basic electricity tokens for indigent households

The free basic electricity token assists residents that have difficulty paying for electricity services and are registered as indigent households in terms of the Indigent Policy of the municipality.

For the 2015/16 financial year registered indigents are been provided with a fifty (50) KWh token per household per month at a total cost R4 million to the municipality. The cost of free basic electricity increases to R4.1 million in 2016/2017 financial year and increases to R 4.4 million and R 4.7 million in 2017/18 and 2018/19 respectively. The total amount of units provided per household remains at 50 KWh for the 2016/17 MTREF.

Further detail relating to the number of households receiving free basic services, the cost of free basic services, highest level of free basic services as well as the revenue cost associated with the free basic services is contained in Table 16 MBRR A10 (Basic Service Delivery Measurement)

3.4 Overview of budget related-policies

The Municipality's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies of the municipality.

3.4.1 Review of credit control and debt collection procedures/policies

The Debt Collection Policy as approved by Council in May 2015 is was reviewed. While the adopted policy is credible, sustainable, manageable and informed by affordability and value for money there has been a need to review the tariff for property rates and certain components to encourage our customers to pay their accounts as they complained with current rate and to achieve a higher collection rate. In addition emphasis will be placed on speeding up the indigent registration process to ensure that credit control and debt collection efforts are not fruitlessly wasted on these debtors.

The 2016/17 MTREF has been prepared on the basis of achieving an average debtors' collection rate of 50 per cent on current debtors. In addition the collection of debt in excess of 90 days has been prioritised as a pertinent strategy in increasing the municipality's cash levels and since these overdue debtors has not paid in the past two financial years and an impairment was made to their balances as at 30 June 2015, the municipality has not made any projection for them in the cash flow statement for 2016/17 MTREF. In addition, the potential of a payment incentive scheme is being investigated and if found to be viable will be incorporated into the policy.

3.4.2 Budget Policy

The adjustments budget process is governed by various provisions in the MFMA and the Budget policy of the municipality which is aimed at instilling and establishing an increased level of discipline, responsibility and accountability in the financial management practices of municipalities. To ensure that the municipality continues to deliver on its core mandate and achieves its developmental goals, the mid-year review and adjustment budget process is utilised to ensure that underperforming functions are identified and funds redirected to performing functions.

3.4.3 Supply Chain Management Policy

The Supply Chain Management Policy was adopted by Council in May 2015. This policy is under review and the amended policy will be considered by Council in due course of which the amendments will be extensively consulted on.

3.4.4 Cash Management and Investment Policy

The municipality's Cash Management and Investment Policy was adopted by Council in May 2015. The aim of the policy is to ensure that the municipality's surplus cash and investments are adequately managed, especially the funds set aside for the cash backing of certain reserves. The policy details the minimum cash and cash equivalents required at any point in time and introduce time frames to achieve certain benchmarks.

3.4.5 Tariff Policies

The municipality's tariff policy provide a broad framework within which the Council can determine fair, transparent and affordable charges that also promote sustainable service delivery. The policy was adopted by council on May 2014 and is currently under review. The reviewed policy will be submitted to council for approval in May 2016.

3.5 Overview of budget assumptions

3.5.1 External factors

Owing to the economic slowdown, financial resources are limited due to reduced payment levels by consumers. This has resulted in declining cash inflows, which has necessitated restrained expenditure to ensure that cash outflows remain within the affordability parameters of the municipality's available cash.

3.5.2 General inflation outlook and its impact on the municipal activities

There are five key factors that have been taken into consideration in the compilation of the 2016/17 MTREF:

- National Government macro economic targets;
- The general inflationary outlook and the impact on municipality's residents and businesses;
- The impact of municipal cost drivers;
- The increase in prices for electricity and water; and
- The increase in the cost of remuneration.

3.5.3 Interest rates for borrowing and investment of funds

The MFMA specifies that borrowing can only be utilised to fund capital or refinancing of borrowing in certain conditions. The municipality is not planning to use borrowing to fund its capital projects and therefore no interests are to be paid. The municipality is forecasting to have surplus cash for investment and cash management and investment policy will be applied when investing such funds to generate revenue.

3.5.4 Collection rate for revenue services

The municipality's assumption is that, the reduction of the property rates tariff implemented from 1 July 2016 will be affordable to the rate payers and collection will increase significantly as compared to the previous years.

The rate of revenue collection is currently expressed as a percentage (27 per cent) of annual billings. Cash flow for 2016/17 is expected to be 50 per cent of billings, plus an increased collection of arrear debt from the revised collection and credit control policy and the use of debt collector.

3.5.5 Salary increases

We have budgeted salary increases as per the National Treasury Circular number 78 and 79. We budgeted an increase of 7 per cent for 201/17 and 6.8 per cent for 2017/2018 and 2018/2019 respectively for all employees with exclusion of senior managers. .

3.5.6 Impact of national, provincial and local policies

Integration of service delivery between national, provincial and local government is critical to ensure focussed service delivery and in this regard various measures were implemented to align IDPs, provincial and national strategies around priority spatial interventions. In this regard, the following national priorities form the basis of all integration initiatives are:

- Creating jobs;
- Enhancing education and skill development;
- Improving Health services;
- Rural development and agriculture; and
- Fighting crime and corruption.

To achieve these priorities integration mechanisms are in place to ensure integrated planning and execution of various development programs. The focus will be to strengthen the link between policy priorities and expenditure thereby ensuring the achievement of the national, provincial and local objectives.

3.6 Overview of budget funding

3.6.1 Medium-term outlook: operating revenue

The following table is a breakdown of the operating revenue over the medium-term:

Table 22 Breakdown of the operating revenue over the medium-term

LIM473 Makhuduthamaga - Table A4 Budgeted Financial Performance (revenue and expenditure)											
Description	Ref	2012/13	2013/14	2014/15	Current Year 2015/16				2016/17 Medium Term Revenue & Expenditure Framework

Service charges - sanitation revenue	2	–	–	–	–	–	–	–	–	–	–
Service charges - refuse revenue	2	–	–	–	–	–	–	–	–	–	–
Service charges - other											
Rental of facilities and equipment		26	75	106	95	115	115	115	121	121	125
Interest earned - external investments		4 062	7 827	8 119	12 702	11 702	11 702	11 702	12 225	12 259	13 370
Interest earned - outstanding debtors		8 938	12 455	17 087	17 998	20 498	20 498	20 498	20 998	21 058	23 757
Dividends received											
Fines		8	156	635	525	579	579	579	630	632	635
Licences and permits		–	–								
Agency services		3 791	4 039	4 400	5 159	4 909	4 909	4 909	5 154	5 169	6 526
Transfers recognised - operational		146 348	162 144	182 401	232 170	232 170	232 170	232 170	228 253	242 196	256 411
Other revenue	2	927	2 227	1 669	1 310	980	980	980	1 029	1 032	1 061
Gains on disposal of PPE		–	–	2	–	–	–	–	–	–	–
Total Revenue (excluding capital transfers and contributions)		191 758	232 910	244 261	302 787	302 787	302 787	302 787	301 835	315 988	336 885

Tariff setting plays a major role in ensuring desired levels of revenue. Getting tariffs right assists in the compilation of a credible and funded budget. The municipality derives most of its operational revenue from the transfers recognised – operational (government grants), Property rates, capital grants from organs of state and other minor charges (such as licenses and permits etc).

The revenue strategy is a function of key components such as:

- Growth in the municipality and economic development;
- Revenue management and enhancement;
- National Treasury guidelines;
- The Property Rates Policy in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA), and

- And the ability to extend new services and obtain cost recovery levels.

The above principles guide the determination of the tariffs charged to the consumers and the ratepayers aligned to the economic forecasts.

The proposed tariff reduction for the 2016/17 MTREF for Property rates can be shown as follows:

Table 4 Approved tariff reduction over the medium-term

Revenue category	Approved tariff 2015/2016	Approved tariff 2016/2017	Proposed tariff 2017/2018	Proposed tariff 2018/2019
Property Rates	2 cents	1.5 cents	1.5 cents	1.5 cents

3.6.2 Cash Flow Management

Cash flow management and forecasting is a critical step in determining if the budget is funded over the medium-term. The table below is consistent with international standards of good financial management practice and also improves understand-ability for councillors and management of the municipality. Some specific features include:

- Clear separation of receipts and payments within each cash flow category;
- Clear separation of capital and operating receipts from government, which also enables cash from 'Ratepayers and other' to be provide for as cash inflow based on actual performance. In other words the *actual collection rate* of billed revenue and other own sources of revenue:

Table 28 MBRR Table A7 - Budget cash flow statement

NET INCREASE/ (DECREASE) IN CASH HELD		46 725	2 307	(17 585)	(6 570)	(43 422)	(43 422)	(43 422)	5 874	22 441	45 413
Cash/cash equivalents at the year begin:	2	80 670	127 395	129 702	112 117	112 117			68 696	74 569	97 010
Cash/cash equivalents at the year end:	2	127 395	129 702	112 117	105 548	68 696	(43 422)	(43 422)	74 569	97 010	142 423

The above table shows a net decrease in cash held for 2015/2016 and the 2016/17 MTREF which is covered by the favourable cash balances at the beginning of each year. The municipality 's cash and cash equivalents shows a decreasing trend as the municipality use the cash saved from previous financial years to fund infrastructure projects in 2015/16.

3.6.3 Cash Backed Reserves/Accumulated Surplus Reconciliation

This following table meets the requirements of MFMA Circular 42 which deals with the funding of a municipal budget in accordance with sections 18 and 19 of the MFMA. The table seeks to answer three key questions regarding the use and availability of cash:

- What are the predicted cash and investments that are available at the end of the budget year?
- How are those funds used?
- What is the net funds available or funding shortfall?

A surplus would indicate the cash-backed accumulated surplus that was/is available. A shortfall (applications > cash and investments) is indicative of non-compliance with section 18 of the MFMA requirement that the municipality's budget must be 'funded'. Non-compliance with section 18 is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded (budgeted spending is greater than funds available or to be collected). It is also important to analyse trends to understand the consequences, e.g. the budget year might indicate a small surplus situation, which in itself is an appropriate outcome, but if in prior years there were much larger surpluses then this negative trend may be a concern that requires closer examination.

Table 29 MBRR Table A8 - Cash backed reserves/accumulated surplus reconciliation

LIM473 Makhuduthamaga - Table A8 Cash backed reserves/accumulated surplus reconciliation											
Description	Ref	2012/13	2013/14	2014/15	Current Year 2015/16				2016/17 Medium Term Revenue &		
		Audited Outcome	Audited Outcome	Audited Outcome	Original Budget	Adjusted Budget	Full Year Forecast	Pre-audit outcome	Budget Year 2016/17	Budget Year +1 2017/18	Budget Year +2 2018/19
Cash and investments available											
Cash/cash equivalents at the year end	1	127 395	129 702	112 117	105 548	68 696	(43 422)	(43 422)	74 569	97 010	142 423
Other current investments > 90 days		-	-	-	(53 616)	-	112 117	112 117	-	-	-
Non current assets - Investments	1	-	-	-	-	-	-	-	-	-	-
Cash and investments available:		127 395	129 702	112 117	51 932	68 696	68 696	68 696	74 569	97 010	142 423
Application of cash and investments											
Unspent conditional transfers		25 823	7 792	2 717	-	-	-	-	-	-	-
Unspent borrowing		-	-	-	-	-	-	-	-	-	-
Statutory requirements	2										
Other working capital requirements	3	14 097	19 781	20 845	(11 788)	(6 094)	(6 094)	(6 094)	(15 139)	(14 032)	(14 938)
Other provisions											
Long term investments committed	4	-	-	-	-	-	-	-	-	-	-
Reserves to be backed by cash/investments	5										
Total Application of cash and investments:		39 920	27 573	23 561	(11 788)	(6 094)	(6 094)	(6 094)	(15 139)	(14 032)	(14 938)
Surplus(shortfall)		87 475	102 129	88 556	63 720	74 790	74 790	74 790	89 708	111 042	157 360

From the above table it can be seen that the cash and investments available total is R 74.5 million in the 2016/17 financial year and increases to R 97 million by 2017/18 and R 142.4 million by 2018/19.

The main purpose of other working capital is to ensure that sufficient funds are available to meet obligations as they fall due. A key challenge is often the mismatch between the timing of receipts of funds from debtors and payments due to employees and creditors. High levels of debtor non-payment and receipt delays will have a greater requirement for working capital. Any underperformance in relation to collections could place upward pressure on the ability of the municipality to meet its creditor obligations.

It can be concluded that the municipality has a surplus against the cash backed and accumulated surpluses reconciliation.

Funding compliance measurement

National Treasury requires that the municipality assess its financial sustainability against fourteen different measures that look at various aspects of the financial health of the municipality. These measures are contained in the following table. All the information comes directly from the annual budgeted statements of financial performance, financial position and cash flows. The funding compliance measurement table essentially measures the degree to which the proposed budget complies with the funding requirements of the MFMA.

Table 30 MBRR SA10 – Funding compliance measurement

LIM473 Makhuduthamaga Supporting Table SA10 Funding measurement

3.11 Contracts having future budgetary implications

In terms of the municipality's Supply Chain Management Policy, no contracts are awarded beyond the medium-term revenue and expenditure framework (three years). In ensuring adherence to this contractual time frame limitation, all reports submitted to either the Bid Evaluation and Adjudication Committees must obtain formal financial comments from the Financial Management Division of the Treasury Department.

3.12 Capital expenditure details

The following three tables present details of the municipality's capital expenditure programme, firstly on new assets, then the renewal of assets and finally on the repair and maintenance of assets.

The table above indicate that the municipality does not have any of its projects to be implemented delayed from the previous financial years.

3.13 Legislation compliance status

Compliance with the MFMA implementation requirements have been substantially adhered to through the following activities:

1. In year reporting
Reporting to National Treasury in electronic format was fully complied with on a monthly basis. Section 71 reporting to the Mayor (within 10 working days) has progressively improved and includes monthly published financial performance on the municipality's website.
2. Internship programme
The municipality is participating in the Municipal Financial Management Internship programme and has employed six interns undergoing training in various divisions of the Budget and Treasury Department, Risk management and Audit section. The two year training contracts for two of these interns ends in July 2016 and the contracts for the other four interns expire in July 2017. Since the introduction of the Internship programme the municipality has successfully trained 14 interns and employed 9 of the total trained on permanent positions. Three of this total was permanently employed by the district municipality and one was employed by one of the local municipalities.
3. Budget and Treasury Office
The Budget and Treasury Office has been established in accordance with the MFMA.
4. Audit Committee
An Audit Committee has been established and is fully functional.
5. Service Delivery and Implementation Plan
The detail SDBIP document is at a draft stage and will be finalised after approval of the 2016/17 MTREF in June 2016 directly aligned and informed by the 2016/17 MTREF.
6. Annual Report
Annual report is compiled in terms of the MFMA and National Treasury requirements.
7. MFMA Training
The MFMA training module in electronic format is presented at the municipality and training is ongoing.
8. Policies
An amendment of the Municipal Property Rates Regulations as published in Government Notice 363 of 27 March 2009 was announced in Government Gazette 33016 on 12 March 2010. The ratios as prescribed in the Regulations have been complied with.
