PART 1: LEGISLATIVE FRAMEWORK

1.1 Legislation

In terms of Section 62 (1) of the Municipal Finance Management Act (MFMA) the Accounting Officer of Makhuduthamaga Local Municipality is responsible for managing the financial administration of the municipality and, in terms of S62 (1) (f), must for this purpose take all reasonable steps to ensure – “that the municipality has and implements a tariff policy referred to in Section 74 of the Municipal Systems Act” (MSA). In giving effect to S74 (1) of the Municipal Systems Act, the municipality adopts the following as the framework tariff policy within which the municipal council must adopt various policies.

PART 2: GENERAL PRINCIPLES

2.1 Service tariffs to be viewed as user charges

Service tariffs imposed by Makhuduthamaga Municipality shall be viewed as user charges and shall not be viewed as taxes, and therefore the ability of the relevant consumer or user of the services to which such tariffs relate, shall not be considered as a relevant criterion (except in the case of the indigency relief measures approved by Makhuduthamaga Municipality from time to time).

2.2 Tariffs to be uniformly and fairly applied

Makhuduthamaga Municipality shall ensure that its tariffs are uniformly and fairly applied throughout the municipal region.

2.3 Recovery of operating expenses

Tariffs for the major service rendered by Makhuduthamaga Municipality, namely refuse removal (solid waste), shall as far as possible recover the expenses associated with the rendering of each service concerned. The tariff which a particular consumer or user pays shall therefore be directly related to the standard of service received and the quantity of the particular service used or consumed.

2.4 Generation of operating surplus

The Makhuduthamaga Local Municipality shall, as far as circumstances reasonably permit, ensure that the tariffs levied in respect of the foregoing services further generate an operating surplus each financial year of 10% or such lesser percentage as the council of Makhuduthamaga Local Municipality may determine at the time that the annual operating budget is approved. Such surpluses shall be applied in relief of property rates and for the partial financing of general services or for the future capital expansion of the service concerned, or both. The modesty of such surplus shall prevent the service tariffs concerned from being viewed as concealed taxes.

2.5 Annual review of Indigent Support Programme

Makhuduthamaga Local Municipality shall annually review its indigence support programme for the municipal area.

2.6 Differentiation of different categories of users

In line with the principles embodied in the Constitution and in other legislation pertaining to local government, the Makhuduthamaga Local Municipality differentiates between different categories of users and consumers in regard to the tariffs which it levies. Such differentiation shall, however, at all times be reasonable, and shall be fully disclosed in each annual budget.

2.7 Transparency

Makhuduthamaga Local Municipality's tariff policy shall be transparent, and the extent to which there is cross-subsidisation between categories of consumers or users shall be evident to all consumers or users of the service in question.

Makhuduthamaga Local Municipality further undertakes to ensure that its tariffs shall be easily explainable and understood by all consumers and users affected by the tariff policy concerned.

2.8 Services to be rendered in a cost effective manner

Makhuduthamaga Municipality also undertakes to render its services cost effectively in order to ensure the best possible cost of service delivery.

2.9 Enforcement of tariffs

Makhuduthamaga Municipality shall consistently enforce its tariffs and in order to deal with non-payment of municipal services by consumers, the Credit Control and Debt Collection By-Law will be applied.

2.10 Promotion of local economic development

In order to promote and ensure local economic development, competitiveness and sustainability, Makhuduthamaga Municipality shall not place too high a burden on local business and industrial activities when determining the tariffs for services charge.

PART 3: CALCULATION OF TARIFFS
