(Directorate: Budget and Treasury)

GD

1. <u>STRATEGIC THRUST</u>

The Rustenburg Local Municipality has adopted the following strategic priority: "To promote sound Financial Management and Good Governance"

2. <u>PURPOSE OF THE REPORT</u>

The requirements for the compilation and submission of the Budget are contained in Chapter 4 of the MFMA and Municipal Budget and Reporting Regulations.

The purpose of this report is to table the amendments to the Tabled 2020/21 MTREF to Council for approval in accordance with section 24 of the Municipal Financial Management Act 56 of 2003 (MFMA) and Municipal Budget and Reporting Regulations (MBRR).

3. EXECUTIVE SUMMARY

The Budget is the most important document in enforcing accountability of Administration in relation to the strategic planning and deliverables as determined by Council. The budget guides and determines the day to day actions necessary for the delivery of municipal services to the community.

The application of sound financial management principles for the compilation of the municipality's financial plan is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The Municipality's business and service delivery priorities were reviewed as part of this year's planning and budget process.

The Budget has been compiled within the framework of the Municipal Financial Management Act (MFMA), Municipal Budget and Reporting Regulations (MBRR), MFMA Circulars No 51, 54, 55, 59, 66, 67, 70, 74, 75, 78, 79, 86, 89, 91, 93, 94 and 99.

In terms of the Municipal Finance Management Regulations, Regulation 17:

- (1) A municipal council must consider the full implications, financial or otherwise, of the annual budget and supporting documentation before approving the annual budget.
- (2) When approving an annual budget, a municipal council must in terms of section 24(2)(c) of the Act, consider and adopt separate resolutions dealing with each of the matters contemplated in that section.
- (3)

4. CHANGES TO THE TABLED 2020/21 MTREF

2020/21 MTREF was tabled to Council on the 22 May 2020 as Item 41 and 42. Public participation on the Tabled 2019/20 MTREF budget was conducted through submission of inputs on the Whatsapp number and email email. Public participation was officially

concluded on the 12 June 2020. National Treasury Budget assessment was also held on the 5^{th} June 2020.

Budget inputs and comments were obtained through these platforms, which resulted in the budget being subjected to changes.

Section 21 of the MFMA read in conjunction with section 21(a) and 21(b) of the Municipal Systems Act, 32 of 2000 (MSA), sets out the legal framework for public consultation in local government. These sections prescribe the platforms that can be used as part of ensuring compliance with these provisions.

In addition, section 23(1) of the MFMA sets out the public consultation framework for the annual budget of a municipality. It provides that "when an annual budget of a municipality has been tabled, the municipal council must consider any views of the local community and both National Treasury, the relevant provincial treasury and any provincial or national organs of state or municipalities which made submissions on the budget".

In line with the principles of good governance, cooperative governance and transparency, the municipality intends to subject the changes to the Tabled 2020/21 MTREF to additional public participation through;

- Public notice, inviting the public to make written comments on the changes made on the Tabled MTREF budget within 7 days.
- The public notice refered above will be placed at the municipal offices, on municipal website and the local newspaper.

The table and notes below illustrating the key changes made to the budget.

5. <u>PUBLIC PARTICIPATIONS</u>

Public participation process had to be conducted differently from our normal practice of meeting enagements with the community, due to the national disaster regualtions on implemnation of lockdown. Inputs were obtained through dedicated email address and Whatsapp number.

Assessment of the public partciapation through number of inputs received indicate that most of our communities prefer interactive engagement and might possibly not have access to emails and whatsapp social platform.

Most of the inputs were received from MUSOLVE. This inputs are responded below and considered in the final budget that wil be tabled to council for approval end of June 2020.

AGENDA: SPECIAL VIRTUAL COUNCIL: 18 JUNE 2020 Below is the highlight of some of the public inputs received and relevant to the consultation and considerations thereof:

Below is the highlight of some of the public inputs received and relevant to the consultation and considerations thereof:							
INPUT	CONSIDERATION						
Proposed tariffs for electricity & water are 6.4% & 5.4% respectively for 20/21. What are municipality's plans to curb illegal connections to electricity? Notable leaks in Tlhabane continue unabated following replacement of water pipes by a previous contractor. What plans do RLM have in place owing to what I consider poor performance on the part of the contractor? The MTREF for 2020/21 cannot be considered unless the changes proposed in Item 42 is not captured in the prescribed tables A1 to A10 and Supporting Tables SA1 to SA 38.	Illegal connection programme has already commenced in town and would be moving towards residential area (The team comprise of electrical, water and public safety units). Disconnection and replacement of prepaid electricity meters was in full force before lockdown (business and residential). The municipality will beef up the team with external stakeholders and assistance of Councillors to tackle all notorious areas. Proposed submissions as per item 42 of Council agenda dated 22 May has being captured as part of the revised tabled budget.						
The income on electricity published, was based on an electricity tariff increase of 8,1%, calculated from a wrong base tariff. However, page 20 disclose tariff increases on electricity of 6,4%, still from the wrong base tariffs. Residents on life-line already pay now R1,2507/kWh for the first 50kWh. Now the increase is disclosed as 6,4% on a base of R1,013302/kWh! After the increase, the new tariff would not be even what these residents pay currently!	Electricity tariff's has been updated according and the effect captured on the revenue projection						
I take it for granted that RLM knows the special adjustment budget for COVID-19 must be tabled by 15 June 2020. Will community members have the opportunity to give input or is it reserved for Councillors? If so, it just serves to illustrate how wrong the Rules of Order are. An Annual Budget must be subjected to public participation, just for it to be amended without any community input. Why then ask at the onset for public input?	Special adjustment has been tabled in Council on the 12 June 2020. Amendments to tabled budget will be subjected to public inputs						
The adjustment budget referred to above may only approve COVID- 19 expenditure! I am humbly asking Councillors to be our watchdogs, as residents will not have an opportunity to submit comments. For paying residents it is a concern, because we are already reading in the media how the pandemic is used to enrich some	COVID 19 expenditure and adjustment of revenue impacted by lockdown drastically formed part of the special adjustment budget tabled on the 12 June 2020.						
I strongly recommend that Councillors engage with stakeholders and/or rethink the proposed tariffs for Outdoor Advertising. It seems that businesses may even have to pay to RLM a fee for having their business names on their buildings, walls or roofs. Will Munsolve for example be liable to pay a fee for their name on the wall at 248	The stakeholders must acknowledge that the rights of business, government and public converge at a point and no stakeholder has the ultimate advantage. To that end, business must advertise to the public, but the public must be protected from potential harm from unregulated advertising, which falls within the ambit of government.						

Beyers Naude? Or will Toyota have to pay a fee for having their name on the building from where they operate? I ask these questions	This provision addresses advertising that must comply with traffic, disaster, environmental and structural issues contained in various national, provincial
as I see a "display fee" of R8 919 per advertisement for private	and Municipal legislation and cannot be avoided even if the advert is on
property.	private property
Example: The building at "Crossing" - will the owner have to pay	
said fee for every business, and it seems even more if it is	
"illuminated"?	
I see it seems that Retief von Wielligh may even have to pay a fee	
for having his vehiclesbranded?Now what about branded vehicles	
passing through RTB?	
I have a magnetic name board used to display "Munsolve" on my	
car, much like the ones used by estate agents. Will we have to pay a	
fee to RLM, even if I do not display it 24/7?	
It rather seems that instead of building the local economy, RLM may	
jeopardize it and chase some businesses, like bill board service	
providers, away from RTB!	
I suggest that RLM and Councillors engage with relevant role	
players in this segment and business owners to clarify the	
uncertainties. Instead of bringing in more income, RLM may find	
itself creating distance between itself, ratepayers and business	
owners. Why should I pay to RLM a fee when I brand, at my cost,	
my vehicle? Why should, for example, PickPaypay a fee for	
disclosing their name on the name of a building? Are the property	
owner not already paying property tax?	
Some of the tariffs only serve to create uncertainty. I think we should be clarified ASAB as some may be understood to imply duplication	
be clarified ASAP, as some may be understood to imply duplication. If you think I am stupid, look at page 29 and 30 of last weeks Herald.	
It is open for different interpretations. Are application fees,	
administration fees and display fees separate? Some tariffs seem to	
include the above. Tariffs should be CLEAR - nobody must be left	
uncertain - and obviously affordable!	
Is it correct that this item indicate that the Budget had served on 23	The annual budget that served before the portfolio on the 12th of March was

March as provided for in law. Did the PF: BTO already knew on 23 March the next MC would only be on 13 May 2020?	
How can any Councillor consider the 2020/21 MTREF if he/she has not seen the Section 71 reports - disclosing the financial results for every month, compared to the budget for 2019/20. I am certain RLM will not realize budgeted income for 2019/20.	Section 71 reports for period July 2019 to December 2019 served before Budget and Treasury Portfolio Committee before finalisation f the MTREF Budget. Section 71 reports for July to November were submitted to council as per council agenda that was to serve end of March 2020. Section 71 report for December was erroneously omitted on the Agenda. Section S71 reports for January 2020 to April 2020 has served at portfolio committee on the 4 th June 2020. The were all referred to Council.
Water income In Table A4, income from water is disclosed to be R619,8 million for current year. For next year, income from water is budgeted to be only R589,5 million, AFTER tariff increases of 5,4% !!! How the is that possible? Do RLM plan for water losses to increase!!! The Table say to us that RLM will bill R30 million LESS, where 5.4% on R619 million should actually generate R33 million MORE! The Mayor should explain how this has been calculated. Can any Cllr perhaps explain it to us	Incorrect increase factor was captured on the outer year. It has been subsequently corrected on the final budget. Water losses are not budgeted
The income from this service is disclosed in the tabled Annual Budget to increase with only 1,13%, yet tariffs are proposed to increase with 5,4%. Now: How can you increase tatiffs with 5,4%, but your income will only increase with 1,13%. Have residents been overcharged in the past? We all should be concerned about the viability of this service. RLM discloses that a loss of R117 million would be made in 2020/21, measured against a projected loss of R128 million in the current year. Are we not paying too much to the contractors appointed to fo this service? I only see refuse trucks that are not branded as belonging to RLM. This is probably the simplest service that RLM should be delivering, explaining why it has been outsourced to "emerging" service providers. Yet, it comes at a cost! In 2016/17 the audited deficit on this service was R75 million - now RLM budget for a loss of R117 million whilst residents would be wuick to point out the quality and reliability of the service has DETERIORATED!	The projection includes some adjustment of units charged. Municipality is not making any loss from this service. The cost to revenue generated average 40%.
I see RLM plan to pay more overtime in 2020/21 - Table SA22 Overtime, when compared to the current year, increase with 12,94%,	Shift system is being assessed to curb overtime. SA22 has been updated accordingly.

whereas salary increases are linked to inflation plus 1%. It thus implies RLM budget to use more people after hours than currently. Should the goal not be to REDUCE overtime by managing & working more effectively? Have we not been told that more money were spend on repairs and maintenance, which should reduce the need for overtime?	
RLM disclose on Table SA21 they would be making a donation to the SPCA of R406 000. Is this enough? I recall media reports disclosing lack of funding to cater for all the stray animals in Rustenburg. However, is the SPCA "an organ of state" as disclosed or an independent NGO?	SPCA is independent. Municipality is working on the MOA with SPCA to finalise the terms of funding. The current allocation is based on previous budgets. Once item has served at council proper determination will be made on SPCA funding.
RLM is requested to correct Table SA14 and publish it immediately. It is important for residents. All the tariffs have NOT only been increased by 5,4%. One can argue that Council is deliberately misleading municipal account holders by indicating that all tariffs are proposed to only increase with 5,4%. This is an outright lie and I am personally very disappointed in Councillors for NOT objecting to it. At the time of compilation, electricity tariffs, for example, was indicated to be increased by 8,1% for domestic users. Why was it disclosed that household bills will only increase with 5.4% on electricity? Very interesting that VAT was EXCLUDED for 2020/21 and teo outer years, yet we know VAT is only not charged on property rates. Said Table actually disclosed that household bills will DECREASE by 7,5%	Table SA14 has been updated in line with final tariffs as per NERSA guidance and application of Circular 99
I see the dedicated WA number where community members can submit input on the budget do not indicate that the input has been opened - since last week. Is it still functioning or has it been abandoned? I have just attended a Zoom meeting hosted by the Dullah Omar Institute at UWC. One of the things that Cape Town is doing is to publish on their website and Facebook accounts the input received to expand input to other community members who cannot now attend meetings during COVID, so as to create awareness and lend more credibility to the process. I think it is a good idea that may be	Whatsapp line is functioning and was used for downloading of Inputs. Use of website and Facebook would also be explored in future.

successfully implemented by RLM. For ex. I do not know what other residents of Ward 14 are saying about this budget. It may influence	
my thinking on for ex. CAPEX or tariffs.

Supporting Table SA8, the budgeted collection rate for 2020/21 is	
disclosed as 87,7%. I also see the current year's collection rate was	
budgeted to be 87,8%. I respectfully submit that the impact of	
COVID-19, over and above previous problems, will be more than the	
0.1% reflected in SA8. In 2018/19, said provision is reflected as an	
audited outcome of R539 million

wonder what excuse will be told to Cllrs!	
Likwise, the provision for impairment is disclosed as R3,483 billion	
on said date, nogal under "audited outcome"! HOWEVER, note 13	
and 16 of the audited AFS for 2018/19, tabled in Council as part of	
the Annual Report, shows said provision to have been R4,7 BILLION	
on 30 June 2019 already!	
So: It implies the RLM cannot even copy an amount correct! They	
have difficulty in doing simple calculations also. On the very same	
SA23. RLM starts with R3, 483 billion and should add the additional	
provision of R596 million. RLM gets an answer of R 3,64 billion. It	
implies RLM cannot do simple calculations!!!!

that refuse collection services are rendered by "external	
mechanisms". That is NOT what is happening in RLM. As far as I	
know, all refuse collection services are rendered by service providers.

Lounding. What about the display of the office No. and succe No?	and public converge at a point and no stakeholder has the ultimate duvalitage.

	To that end, business must advertise to the public, but the public must be protected from potential harm from unregulated advertising, which falls within the ambit of government. This provision addresses advertising that must comply with traffic, disaster, environmental and structural issues contained in various national, provincial and Municipal legislation and cannot be avoided even if the advert is on private property
Given what has reportedly happened, I most definitely do NOT support the bereavement policy of RLM. We are open for abuse, as we cannot rely on RLM to prevent such double payment. In any event, the bereavement policy constitutes in my humble opinion a transgression of the MFMA.	Input is noted. Reference is made to section 3 subsection 3.1 and 3.2 of the bereavement policy
Given the millions budgeted for additional legal fees in the adjustment budget, I would like to know how much was budgeted for legal expenses in 2020/21.	Legal fees are budgeted at R25 million considering the complexity of the litigation the mucipality is dealing with.

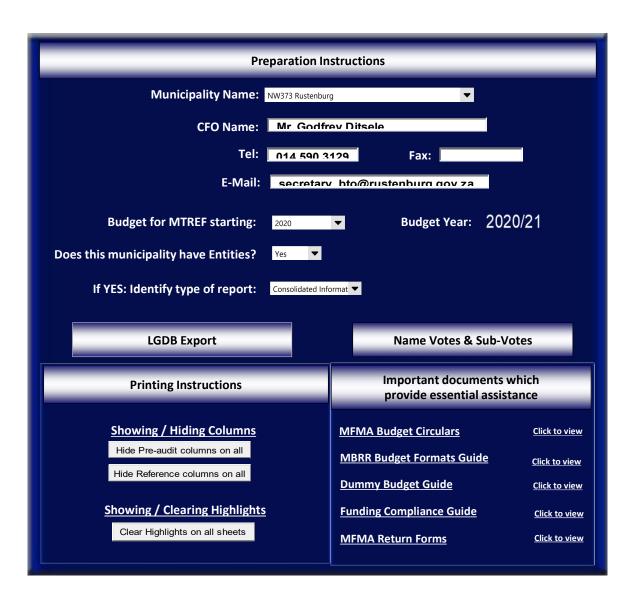

There are other inputs received which are receiving necessary attention and will be responded to in the final budget schedule end of June 2020.

AGENDA: SPECIAL VIRTUAL COUNCIL: 18 JUNE 2020 RECOMMENDED:

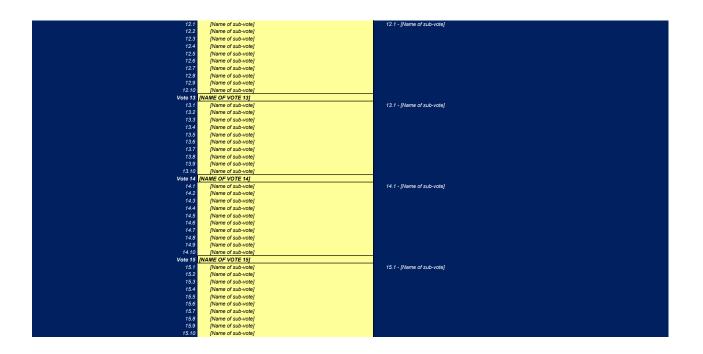

1.	That the amendments to the tabled 2020/21 MTREF be approved by Council;	CC
2.	That the amendment be subjected to Public Particiaption for period of 7 days;	BTO
3.	That Inputs from public participation should be included in the final 2020/21 MTREF budget;	BTO
4.	That amendments to the Tabled Budget should be placed at municipal offices, municipal website and local newspaper for inputs through dedicated Whatsapp line and email address.	BTO

1. Note that this section of Table SA 30 is deliberately not linked to Table A4 because timing differences between the invoicing of clients and receiving the cash means that the cashflow will differ from budgeted revenue, and similarly for budgeted expenditure. However for the MTREF it is now directly linked to A7.

INDIGENT SUPPORT

22. THE EXTENT OF INDIGENT SUPPORT

The extent of the monthly indigent support granted to a Registered Indigent, will be determined based on budgetary allocations for a particular financial year and the municipal tariffs determined for each financial year as part of the Municipality's budget process and as set out in the Tariff Schedule, as referred to in the Municipality's Tariff Policy and By-Law. - (b) The National Policy on Free Basic Alternative Energy, 2007, published under Government Notice 391 in Government Gazette No. 29760 of 2 April 2007, provides for, and is intended to provide indigent households with alternative energy where electricity is not available because the indigent households are not on the national electrical grid. (ii) Alternative sources for households not on a national electricity grid

- (aa) The Municipality will give energy to non-grid indigent households to the value equivalent to the cost of 50kWh per month, (or as prescribed the National Policy on Free Basic Alternative Energy from time to time) or an amount as determined and provided for by the Council in the annual budget from time to time and as published in terms of the Tariff Schedule, as referred to in the Tariff Policy and By-Law of the Municipality.
