“We are Africa”- dialogue

Lephalale Municipality hosted the Limpopo Provincial Legislature in Marapong on Wednesday when they held an outreach programme, facilitating a dialogue to address xenophobia in the region. Key speakers at the event were three members of the Provincial Legislature Soviet Lekganyane, chairperson of the Treasury; Dickson Masemola, chairperson of transport, safety, security & liaison and Dan Sebabi, chairperson of chairpersons/committees. They encouraged the community to continue to work with government and be part of the solution by saying no to violence and reporting those who are bent on using violence to destabilise society to the police. They also emphasised that attacks against foreign nationals do harm the country's reputation and will not be tolerated. They urged the community to resolve any problems or issues peacefully and through dialogue.

“The situation is receiving our highest priority and concerns expressed by both sides are being addressed,” they assured the crowd who also included foreign nationals living in Lephalale.

We celebrated Africa Month-

Here are some of the key messages:

*"We are Africa" –
Opening the doors of
learning and culture
from Cape to Cairo*

South Africa recognises itself as an integral part of the African Continent and understand its national interest as being intrinsically linked to Africa's stability, unity and prosperity, hence the need to recognise and celebrate Africa month.

Encouraging unity amongst all Africans across the continent in support of African Agenda 2063.

South Africa will always champion noble intentions set out in the African Agenda through greater co-operation through solid partnerships across the continent and beyond.

Africa shall never again tolerate change of governments through undemocratic and unconstitutional means. Africa is on a growth trajectory which must be maintained. This is the only way to ensure that the African people are truly emancipated from the wrath of underdevelopment, poverty and hunger.

Congratulations !

Edith Tukakgomo, Executive Manager Development Planning completed her Master's degree in Regional and Town Planning recently. The Development Planning Division celebrated with her during a function held in her honour.
