In terms of Regulation 21 of 2014, Local Government: Regulations on appointment and conditions of employment of senior managers<sup>1</sup>, focus should also be on applying the eight Batho Pele Principles<sup>2</sup>.

The Batho Pele principles are as follows:

#### **Consultation:**

There are many ways to consult users of services including conducting customer surveys, interviews with individual users, consultation with groups, and comprehensiveness and representativeness. Consultation is a powerful tool that enriches and shapes government policies such as the Integrated Development Plans (IDPs) and its implementation in Local Government sphere.

#### **Setting service standards:**

This principle reinforces the need for benchmarks to constantly measure the extent to which citizens are satisfied with the service or products they receive from departments. It also plays a critical role in the development of service delivery improvement plans to ensure a better life for all South Africans. Citizens should be involved in the development of service standards.

Required are standards that are precise and measurable so that users can judge for themselves whether or not they are receiving what was promised. Some standards will cover processes, such as the length of time taken to authorise a housing claim, to issue a passport or identity document, or even to respond to letters.

To achieve the goal of making South Africa globally competitive, standards should be benchmarked (where applicable) against those used internationally, taking into account South Africa's current level of development.

#### **Increasing access:**

---

<sup>1</sup> Regulation 21 of 2014, Local Government: Regulations on appointment and conditions of employment of senior managers

<sup>2</sup> Batho Pele Principles are available on: [http://www.ipid.gov.za/about%20us/batho\\_pele.asp](http://www.ipid.gov.za/about%20us/batho_pele.asp)

One of the prime aims of Batho Pele is to provide a framework for making decisions about delivering public services to the many South Africans who do not have access to them. Batho Pele also aims to rectify the inequalities in the distribution of existing services. Examples of initiatives by government to improve access to services include such platforms as the Gateway, Multi-Purpose Community Centres and Call Centres.

Access to information and services empowers citizens and creates value for money, quality services. It reduces unnecessary expenditure for the citizens.

**Ensuring courtesy:**

This goes beyond a polite smile, 'please' and 'thank you'. It requires service providers to empathize with the citizens and treat them with as much consideration and respect, as they would like for themselves.

The public service is committed to continuous, honest and transparent communication with the citizens. This involves communication of services, products, information and problems, which may hamper or delay the efficient delivery of services to promised standards. If applied properly, the principle will help demystify the negative perceptions that the citizens in general have about the attitude of the public servants.

**Providing information:**

As a requirement, available information about services should be at the point of delivery, but for users who are far from the point of delivery, other arrangements will be needed. In line with the definition of customer in this document, managers and employees should regularly seek to make information about the organisation, and all other service delivery related matters available to fellow staff members.

**Openness and transparency:**

A key aspect of openness and transparency is that the public should know more about the way national, provincial and local government institutions operate, how well they utilise the resources they consume, and who is in charge. It is anticipated that the public will take advantage of this principle and make suggestions for improvement of service delivery mechanisms, and to even make government employees accountable and responsible by raising queries with them.

**Redress:**

This principle emphasises a need to identify quickly and accurately when services are falling below the promised standard and to have procedures in place to remedy the situation. This should be done at the individual transactional level with the public, as well as at the organisational level, in relation to the entire service delivery programme.

Public servants are encouraged to welcome complaints as an opportunity to improve service, and to deal with complaints so that weaknesses can be remedied quickly for the good of the citizen.

*H. S.*

**Value for money:**

Many improvements that the public would like to see often require no additional resources and can sometimes even reduce costs. Failure to give a member of the public a simple, satisfactory explanation to an enquiry may for example, result in an incorrectly completed application form, which will cost time to rectify.

## 5. SUMMARY SCORECARD

In terms of Regulation 805 of 2006, the employee will be scored on a ratio of 80% for key performance areas (KPAs) and 20% for competency requirements. It is also required that the KPAs relevant to the employees functions also be weighted in terms of importance out of a total of 100%, contributing to the 80% contribution to KPAs. It is also necessary to allocate weightings amongst KPIs and projects where relevant. A summary of the total weightings are indicated below:

## 6. RATING SCALES

The assessment of the performance of the Employee will be based on the following rating scale for KPIs and Competencies:

Level	Terminology	Description
5	Outstanding performance	Performance far exceeds the standard expected of an employee at this level. The appraisal indicates that the Employee has achieved above fully effective results against all performance criteria and indicators as specified in the PA and Performance plan and maintained this in all areas of responsibility throughout the year.
4	Performance significantly above expectations	Performance is significantly higher than the standard expected in the job. The appraisal indicates that the Employee has achieved above fully effective results against more than half of the performance criteria and indicators and fully achieved all others throughout the year.
3	Fully effective	Performance fully meets the standards expected in all areas of the job. The appraisal indicates that the Employee has fully achieved effective results against all significant performance criteria and indicators as specified in the PA and Performance Plan.
2	Performance not fully effective	Performance is below the standard required for the job in key areas. Performance meets some of the standards against more than half the key performance criteria and indicators as specified in the PA and Performance Plan.
1	Unacceptable performance	Performance does not meet the standard expected for the job. The appraisal indicates that the employee has achieved below fully effective results against almost all of the performance criteria and indicators as specified in the PA and Performance Plan. The employee has failed to demonstrate the commitment or ability to bring performance up to the level expected in the job despite management efforts to encourage improvement.

## 7. PERFORMANCE ASSESSMENT PROCESS

The following steps will be followed to ensure a fully participative and compliant performance assessment process is adhered to.

1. Performance Assessment:
  - 1.1. Formal assessment between employee and employer will take place twice a year to measure the performance of the employee against the agreed performance targets for the half yearly and yearly assessments respectively.
  - 1.2. Actual performance against the targets will be captured in preparation for the assessments.
  - 1.3. Scores of 1-5 will be calculated based upon the progress against targets.
  - 1.4. KPI's and targets are audited before assessment date and their findings must accompany the Performance Plans.
  - 1.5. The employer must keep a record of the mid-year assessment and annual assessment meetings.
2. The employee being assessed will compile a portfolio of evidence confirming the level of performance achieved for a given assessment period and made available to the Panel on request. One independent person may be assigned to act as an Observer.
3. The process for determining Employee ratings are as follows:
  - 3.1. The panel to rate the achievement for the KPI's on a 5 point scale. Decimal places can be used.
  - 3.2. The employee to motivate for higher ratings where applicable.
  - 3.3. The panel to rate the employee's core competency requirements on the 5 point scale. Decimal places can be used.
  - 3.4. The panel scores are averaged to derive at a total score per KPI / Activity / Competencies. Overall scores are calculated by taking weightings into account where applicable.
- 3.5. The final KPA's rating will account for 80% of the final assessment total. The Competencies are to account for 20% of the final assessment total.
4. The five point rating scale referred to in regulation 805 correspond as follows:

Rating:	1	2	3	4	5
% Score:	0-66	67-99	100-132	133-166	167
5. The assessment rating calculator is used to calculate the overall % score for performance.
6. Annual performance evaluation to determine the final ratings and scores as well as recommend performance bonuses will be conducted by the appropriate panel as constituted by Regulation 805 of 2006.
7. The performance bonus percentages described in the performance agreement will be calculated on a sliding scale of the all-inclusive remuneration package as indicated in table below:

% Rating Over Performance	% Bonus
130-149%	5-9%
150% and above	10-14%

*H.S.*

8. The Personal Development Plan (PDP) can be reviewed after the performance evaluation had been finalised in case where more clarity has been established on what the essential development needs for the relevant person will be.
9. The results of the annual performance evaluation will be submitted to the performance audit committee for final approval of the assessment/s /evaluations.
10. Performance bonus, based upon the annual evaluation, will be subject to approval by Council.
11. The performance evaluation results of the Municipal Manager will also be submitted to the MEC responsible for Local Government in the Province.

## 8. APPROVAL

The process followed ensures individual alignment to the strategic intent of the institution and gives clear direction on what needs to be achieved through a self-directed approach to execute on the objectives, to build sound relationships, to develop human capital and to strengthen the organisation through excellent performance. This plan has derived from intense workshopping to ensure integration, motivation and self-direction. The employer and employee both have responsibilities and accountabilities in getting value from this plan. Neither party can succeed without the support of the other.

Undertaking of the employer	Undertaking of the employee
<p>On behalf of my organisation, I undertake to ensure that a work environment conducive for excellent employee performance is established and maintained. As such, I undertake to lead to the best of my ability, communicate comprehensively, and empower managers and employees. Employees will have access to ongoing learning, will be coached, and will clearly understand what is expected of them.
