

WORD OF SUPPORT BY THE MAYOR OF :LEPHALALE LOCAL MUNICIPALITY, CLLR MOLOKO JACK MAEKO, AT THE OPENING OF THE TAUWFORTEIN MELKERY DAIRY SWISS

PROTOCOL OBSERVED

It is with great appreciation and excitement that I welcome everyone who made this project a success. The opening of this project coincides with the birthday month of our struggle icon, our hero the late Tata Nelson Rolihlahla Madiba.

The fact that these project comes with the creation of jobs for our people is an achievement and also and a solution to the triple challenges of poverty, unemployment and inequality.unemployment is a nationwide challenge and it is only through partnerships with the private sector that we can find solutions.

Our sincere gratitude goes to those who chose to establish this project in Lephalale. It is one of the much appreciated projects which directly aligns with Madiba's quote when he said *“As long as many of our people still live in utter poverty, as long as children still live under plastic covers, as long as many of our people are still without jobs, no South African should rest and wallow in the joy of freedom.”*

Programme Director

We want to take this opportunity to wish the CEO and his/her team great success and that our people benefit from this milestone.

It is the responsibility of the Municipality to support any project that will bring change to the lives of our communities. We hope that the opening of these project marks the beginning of a good working relationship between the project manager, the community and the Municipality.

With these few words we would like to wish the CEO of Tauwfontein and his team great success. Our doors will always be open whenever a need for engagements arises.

I THANK YOU
